

Plasma TV user manual

Thank you for purchasing this Samsung product. To receive more complete service, please register your product at

www.samsung.com/register

A detailed User's Manual is built into your TV. For more information about how to view this e-Manual see page 34.

Figures and illustrations in this User Manual are provided for reference only and may differ from actual product appearances. Product design and specifications may be changed without notice.

Important Warranty Information Regarding

Wide screen format PDP Displays (with 16:9 aspect ratios, the ratio of the screen width to height) are primarily designed to view wide screen format full-motion video. The images displayed on them should primarily be in the wide screen, 16:9 ratio format, or expanded to fill the screen, if your model offers this feature, with the images constantly in motion. Displaying stationary graphics and images on the screen, such as the dark sidebars on non-expanded standard format television video and programming, should be limited to no more than 5% of the total television viewing per week.

Additionally, viewing other stationary images and text such as stock market reports, video game displays, station logos, web sites or computer graphics and patterns, should be limited as described above for all televisions. Displaying stationary images that exceed the above guidelines can cause uneven aging of PDP Displays that leave subtle, but permanent burned-in ghost images in the PDP picture. To avoid this, vary the programming and images, and primarily display full screen moving images, not stationary patterns or dark bars. On PDP models that offer picture sizing features, use these controls to view different formats as a full screen picture.

Be careful about the television formats you select and the length of time you view them. Uneven PDP aging as a result of format selection and use, as well as burned in images, are not covered by your Samsung limited warranty.

SAMSUNG ELECTRONICS NORTH AMERICAN LIMITED WARRANTY STATEMENT

Subject to the requirements, conditions, exclusions and limitations of the original Limited Warranty supplied with Samsung Electronics (SAMSUNG) products, and the requirements, conditions, exclusions and limitations contained herein, SAMSUNG will additionally provide Warranty Repair Service in the United States on SAMSUNG products purchased in Canada, and in Canada on SAMSUNG products purchased in the United States, for the warranty period originally specified, and to the Original Purchaser only.

The above described warranty repairs must be performed by a SAMSUNG Authorized Service Center. Along with this Statement, the Original Limited Warranty Statement and a dated Bill of Sale as Proof of Purchase must be presented to the Service Center. Transportation to and from the Service Center is the responsibility of the purchaser. Conditions covered are limited only to manufacturing defects in material or workmanship, and only those encountered in normal use of the product.

Excluded, but not limited to, are any originally specified provisions for, in-home or on-site services, minimum or maximum repair times, exchanges or replacements, accessories, options, upgrades, or consumables.

For the location of a SAMSUNG Authorized Service Center, please call toll-free:

- In the United States: 1-800-SAMSUNG (1-800-726-7864)
- In Canada: 1-800-SAMSUNG

User Instructions

· Screen Image retention

Do not display a still image (such as on a video game) on the plasma display panel for more than several minutes as it can cause screen image retention. This image retention is also known as 'screen burn'. To avoid such image retention, refer to e-Manual to reduce the degree of brightness and contrast of the screen when displaying a still image.

· Heat on the top of the Plasma TV

The top side of the product may be hot after long periods of use as heat dissipates from the panel through the vent hole in the upper part of the product. This is normal and does not indicate any defect or operation failure of the product. However, children should be prevented from touching the upper part of the TV.

• The product is making a 'cracking' noise.

A 'cracking' noise may occur when the product contracts or expands due to a change in the surrounding environment such as temperature or humidity. This is normal and not a defect of the unit.

Cell Defects

Your plasma TV has a panel containing 2,360,000 (HD-level) to 6,221,000 (FHD-level) pixels which require sophisticated technology to produce. However, there may be a few bright or dark pixels on the screen. These pixels will have no impact on the performance of the product.

- Avoid operating the TV at temperatures below 41°F (5°C)
- A still image displayed too long may cause permanent damage to the PDP Panel.

Watching the Plasma TV in 4:3 format for a long period of time may leave traces of borders displayed on the left, right and center of the screen caused by the difference of light emission on the screen. Playing a DVD or a game console may cause similar effects to the screen. Damages caused by the above effect are not covered by the Warranty.

· After-images on the Screen.

Displaying still images from Video games or a PC for longer than a certain period of time may produce partial after-images. To prevent this effect, reduce the 'brightness' and 'contrast' when displaying still images for a long time.

Warranty

Warranty does not cover any damage caused by image retention. Burn-in is not covered by the warranty.

Caution

The glass screen of your PDP TV can break if you accidently drop the TV. Handle the TV with care. When moving the TV, always have two or more people pick it up and carry it as a safety precaution. Do not lay the TV flat on its face or back.

Your Samsung Plasma TV is a high quality television that has been carefully packaged to protect the integrity of its glass panel and component parts during shipment. It is, nonetheless, a fragile piece of electronics that requires careful handling. Refrain from putting undue stress on any part of the packaging when shipping or unpacking the TV. Use care when installing the TV. Avoid placing the TV in a location where it may be struck, exposed to sharp impacts, or fall. Panel breakage caused by a fall or impact strike is not covered under the manufacturer's warranty.

List of Features

- **3D**: This exciting new feature enables you to view 3D content.
- SMART HUB: Your gateway to all your content, integrated in one place.
 - Provides diverse entertainment choices.
 - Lets you control your entertainment life with an easy-to-use, user friendly user interface.
 - Gives you easy access to diverse apps, with more being added every day.
 - Lets you customize your TV by grouping and sorting apps to your taste.
- AllShare Play: Lets you access, view, or play photos, videos, or music located on USB devices, digital cameras, cell phones, and PCs. PCs and cell phones can be accessed wirelessly, through your wireless network.
- Anynet+ (HDMI-CEC): Allows you to control all connected Samsung devices that support Anynet+ with your Samsung TV's remote.
- e-Manual: Provides a detailed, on-screen user's manual that's built into your TV. (page 34)

Accessories and Cables

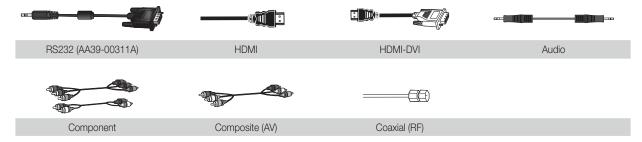

- Please make sure the following items are included with your TV. If any items are missing, contact your dealer.
- The items' colors and shapes may vary depending on the model.
- Make sure that there are no accessories hidden behind or under packing materials after you open the box.
 - Remote Control (AA59-00559A) & Batteries (AAA x 2)
 - Warranty Card / Safety Guide
 - User Manual

- Cleaning Cloth (BN63-01798B)
- 3D Active Glasses
- Power Cord

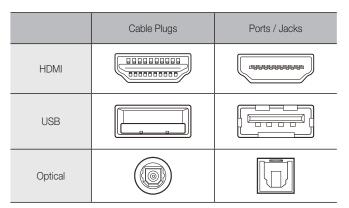

Input Cables (Sold Separately)

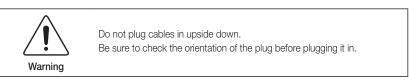

You will need one or more of these cables to connect your TV to your antenna or cable outlet and your peripheral devices (Blu-ray players, DVD players, etc.)

To purchase the RS232 cable, contact www.SamsungParts.com.

Make sure you have the correct cable before plugging it in. Illustrations of common plugs and jacks are below.

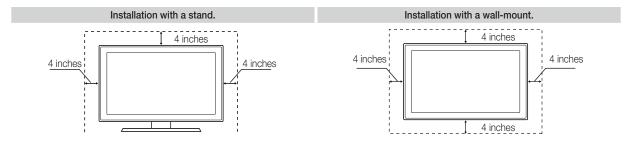

Wireless Keyboard (Sold Separately)

Providing Proper Ventilation for Your TV

When you install your TV, maintain a distance of at least 4 inches between the TV and other objects (walls, cabinet sides, etc.) to ensure proper ventilation. Failing to maintain proper ventilation may result in a fire or a problem with the product caused by an increase in its internal temperature.

- Whether you install your TV using a stand or a wall-mount, we strongly recommend you use parts provided by Samsung Electronics only.
 - If you use parts provided by another manufacturer, it may cause difficulties with the product or result in injury caused by the product falling.

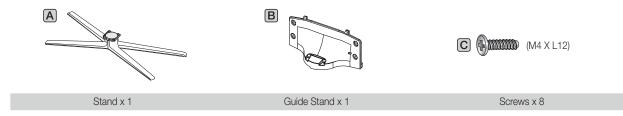

Other Warnings

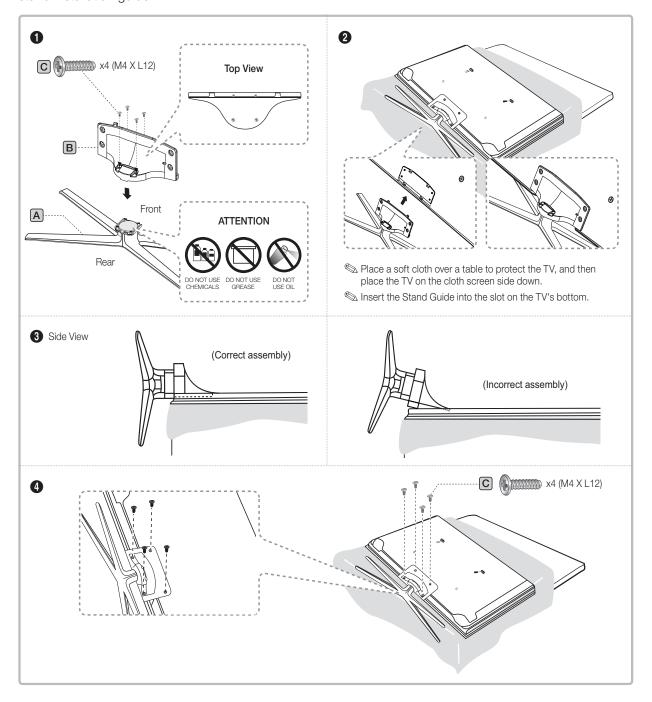

- ☼ The actual appearance of the TV may differ from the images in this manual, depending on the model.
- Be careful when you touch the TV. Some parts can be somewhat hot.

Installing the Stand

Stand Parts: 51 inches model only

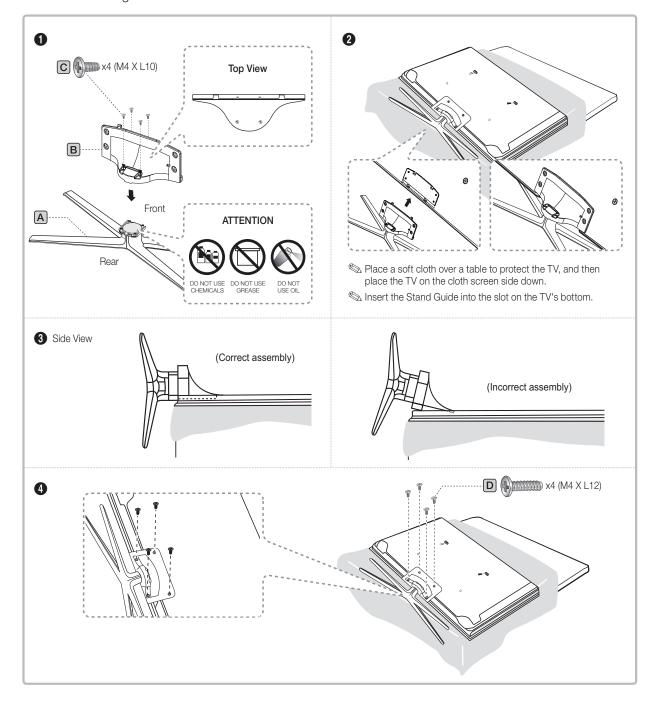

Follow the steps below to connect the TV to the stand. For more detailed instructions, see the separate stand installation guide.

Stand Parts: 60, 64 inches model only

Follow the steps below to connect the TV to the stand. For more detailed instructions, see the separate stand installation guide.

NOTE

- Make sure to distinguish between the front and back of each component when assembling them.
- Make sure that at least two people lift and move the TV.
- Stand the product up before you tighten the screws. If you tighten the screws with the TV lying down, it may lean to one side when you stand it up.

⚠ Do not insert your fingers into the stand base slot of the TV when installing the stand base.

Installing the Wall Mount (Optional)

Wall or Ceiling Mounting

If you mount this product on a wall, it should be mounted only as recommended by the manufacturer. Unless it is correctly mounted, the product may slide or fall, causing serious injury to a child or adult, and serious damage to the product.

Installing the Wall Mount Kit

The wall mount kit (sold separately) lets you mount the TV on the wall.

For detailed information about installing the wall mount, see the instructions provided with the wall mount. We recommend you contact a technician for assistance when installing the wall mount bracket. We do not advise you to do it yourself. Samsung Electronics is not responsible for any damage to the product or injury to yourself or others if you elect to install the wall mount on your own.

To order the wall mount kit, contact Samsung Customer Care at 1-800-SAMSUNG (1-800-726-7864).

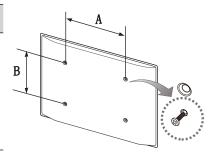

VESA Wall Mount Kit Notes and Specifications

Install your wall mount on a solid wall perpendicular to the floor. Before attaching the wall mount to surfaces other than plaster board, please contact your nearest dealer for additional information. If you install the TV on a ceiling or slanted wall, it may fall and result in severe personal injury.

NOTE

- Standard dimensions for wall mount kits are shown in the table below.
- Samsung wall mount kits contain a detailed installation manual and all parts necessary for assembly are provided.
- Do not use screws that do not comply with the VESA standard screw specifications.
- Do not use screws that are longer than the standard length or do not comply with the VESA standard screw specifications. Screws that are too long may cause damage to the inside of the TV set.
- For wall mounts that do not comply with the VESA standard screw specifications, the length of the screws may differ depending on the wall mount specifications.
- Do not fasten the screws too firmly. This may damage the product or cause the product to fall, leading to personal injury. Samsung is not liable for these kinds of accidents.
- Samsung is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or the consumer fails to follow the product installation instructions.
- Do not mount the TV at more than a 15 degree tilt.
- Always have two people mount the TV on a wall.

Product Family	TV size in inches	VESA screw hole specs (A * B) in millimeters	Standard Screw	Quantity
PDP TV	43 – 51	400 X 400	M8	4
PUP IV	60 – 64	600 X 400	IVIO	4

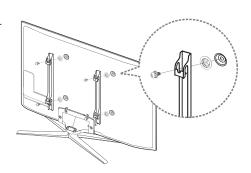

Remove the screws in the mounting holes before you install the wall mount.

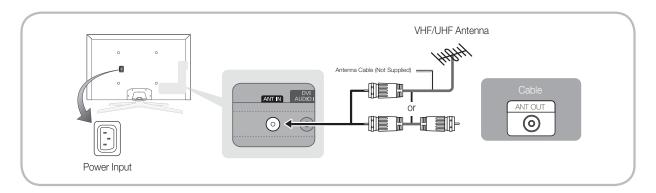

Do not install your Wall Mount Kit while your TV is turned on. It may result in personal injury due to electric shock.

Installing a Wall Mount from Another Manufacturer

To install a wall-mount from another manufacturer, use the Holder-Ring.

Connecting the Power Cord and the Antenna or Cable Connection

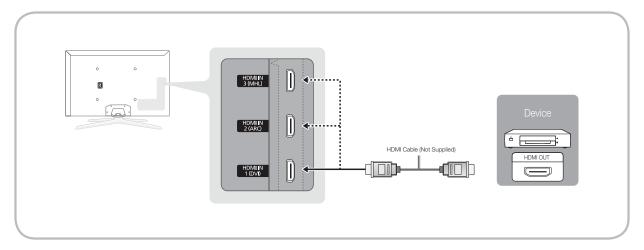

- Plug the power cord into a wall outlet only after you have made all other connections.
- If you are connecting your TV to a cable or satellite box using HDMI, Component, or Composite connections, you do not need to connect the ANT IN jack to an antenna or a cable connection.
- The Plasma TV may interfere with an amateur radio or AM radio.
- Using two-way radio mobile and portable units or amateur radio or AM radio near your TV may cause the TV to malfunction.
- Use caution when you move or swivel the TV if the antenna cable is tightly connected. You could break the antenna jack off the TV.

Connecting to AV Devices (Blu-ray Players, DVD Players, etc.)

Using an HDMI Cable for an HD connection (up to 1080p, HD digital signals)

For the best quality HD picture, we recommend using an HDMI connection.

Use with DVD players, Blu-ray players, HD cable boxes, and HD Set-Top-Box satellite receivers.

March HDMI IN 1 (DVI), HDMI IN 2 (ARC), HDMI IN 3 (MHL)

- For the best picture and audio quality, connect digital devices to the TV using HDMI cables.
- An HDMI cable supports digital video and audio signals, and does not require an audio cable.
 - To connect the TV to a digital device that does not support HDMI output, use an HDMI to DVI cable and audio cables.
- If you connect an external device to the TV that uses an older version of HDMI, the video and audio
 may not work. If this occurs, ask the manufacturer of the device about the HDMI version and, if it is
 out of date, request an upgrade.
- Be sure to purchase a certified HDMI cable. Otherwise, the picture may not display or a connection error may occur.
- We recommend using a basic high-speed HDMI cable or an HDMI cable that is Ethernet compatible. Note that this product does not support the Ethernet function via HDMI.
- This product supports the 3D and ARC (Audio Return Channel) functions via an HDMI cable. Note that the ARC function is supported by the **HDMI IN 2 (ARC)** port only.
- The ARC function allows digital audio to output via the **HDMI IN 2 (ARC)** port on the TV. It can be enabled only when the TV is connected with an audio receiver that supports the ARC function.
- This product supports the Mobile High-Definition Link (MHL) function via an HDMI-MHL cable. Note that the MHL function is supported by the **HDMI IN 3 (MHL)** port only.
- The MHL function lets you display a mobile device's screen via the **HDMI IN 3 (MHL)** port on the TV. It can be enabled only when the TV is connected with a mobile device that supports the MHL function. For more detailed information, see "Using the MHL function" in e-Manual.
- When you use MHL devices via a MHL cable, Picture Size is set to Screen Fit automatically. But
 if you use MHL devices via an HDMl cable, Picture Size is not set to Screen Fit automatically.
 To view an original size, select Screen Fit in the Picture Size menu (Menu → Picture → Picture
 Size).
- If you use MHL devices via an HDMI cable, The TV will be recognized as the HDMI input. In this case, the TV may work differently than when you use MHL devices via a MHL cable.

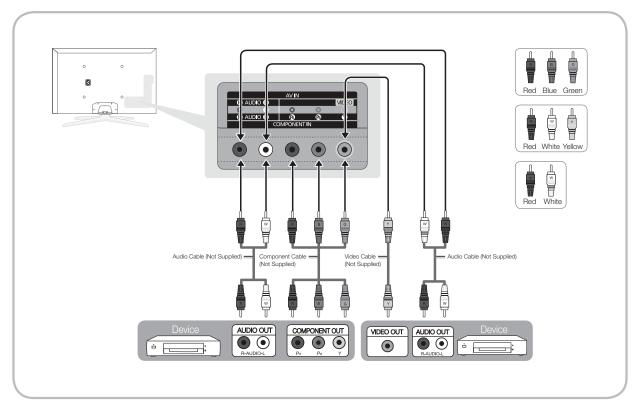

Note that the cable connection to this product, use cables no thicker than the cable illustrated below:

• Maximum thickness - 0.55 inches (14mm)

Using a Component Cable (up to 1080p HD signals) or an Audio/Video Cable (480i analog signals only)

Use with DVD players, Blu-ray players, cable boxes, STB satellite receivers, VCRs.

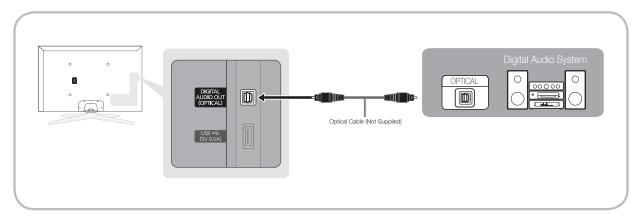

- Solution For better picture quality, we recommend the Component connection over the A/V connection.
- When you connect a Video cable to **AV IN**, the color of the **AV IN [VIDEO]** jack (green) will not match the video cable (yellow).

Connecting to Audio Devices

Using an Optical (Digital) Cable Connection

Use with Digital Audio Systems, Amplifiers, and Home Theaters.

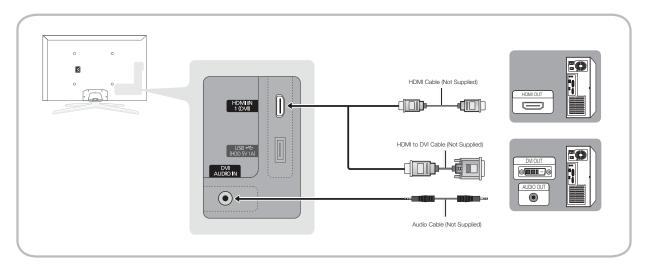

□ DIGITAL AUDIO OUT (OPTICAL)

- When you connect a Digital Audio System to the **DIGITAL AUDIO OUT (OPTICAL)** jack, decrease the volume of both the TV and the system.
- 5.1 CH (channel) audio is available when you connect the TV to an external device supporting 5.1 CH.
- When the receiver (or home theater) is set to on, you can hear sound output from the TV's optical jack. When the TV is receiving a DTV signal, the TV will send 5.1 CH sound to the home theater receiver. When the source is a digital component such as a DVD player / Blu-ray player / cable box / STB (Set-Top-Box) satellite receiver and you connected it to the TV via HDMI, you will only hear 2 CH audio from the home theater receiver. If you want to hear 5.1 CH audio, connect the digital audio out jack from your DVD / Blu-ray player / cable box / STB satellite receiver directly to an amplifier or home theater.

Connecting to a PC

Using an HDMI cable or an HDMI to DVI cable

- Nour PC may not support an HDMI connection.
- Use your PC speakers for audio.

The optimal resolution is 1920 X 1080 @ 60 Hz. See the Display Resolution page for all available resolutions (page 43).

NOTE

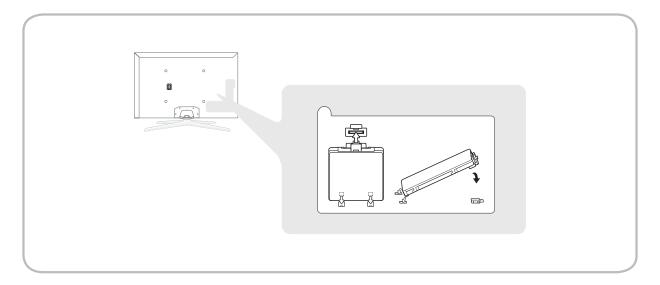

- For an HDMI to DVI cable connection, you must use the HDMI IN 1 (DVI) jack.
- For PCs with DVI video out jacks, use an HDMI to DVI cable to connect the DVI out on the PC to the HDMI IN 1 (DVI) jack on the TV. Use the PC's speakers for audio.
- PC (D-Sub) input is not supported.

The EX-Link Cable Connection

The **EX-LINK** connection is for service only.

The Evolution Kit Slot (Kit Sold Separately)

This socket is designed to accept an extension device called the Evolution Kit. The Evolution Kit enables the TV to run a variety of the latest applications for a better user experience.

The Evolution Kit, which may not be available depending on the product, will be sold separately in 2013 or later.

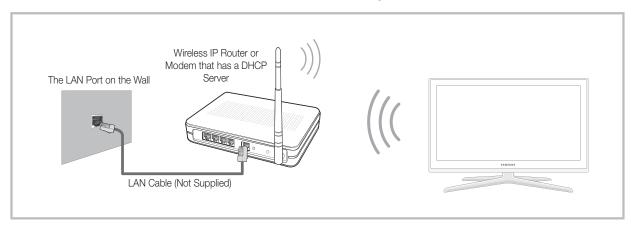

Connecting to a Network

You can set up your TV so that it can access SMART TV applications through your local area network (LAN) using a wired or wireless connection.

After you have "physically" connected your TV to your network, you must configure the network connection to complete the process. You can configure the connection during the Initial Setup process (see page 24) or after the Initial Setup process, through the TV's menu (see page 32).

Network Connection - Wireless

You can connect your TV to your local area network (LAN) through a standard wireless router or modem.

This TV supports the IEEE 802.11a/b/g and n communication protocols. Samsung recommends using IEEE 802.11n. If you play video using IEEE 802.11a, b, or g, the video may not play smoothly.

Most wireless network systems incorporate a security system that requires devices that access the network through an access point or AP (typically a wireless router or modem) to transmit an encrypted security code called an access key.

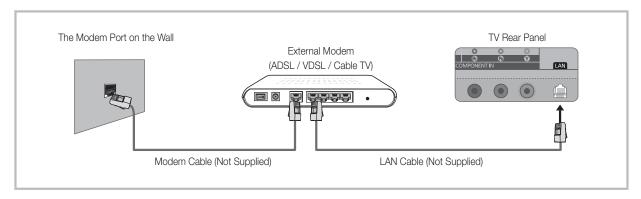

Your TV is compatible with the following security protocols:

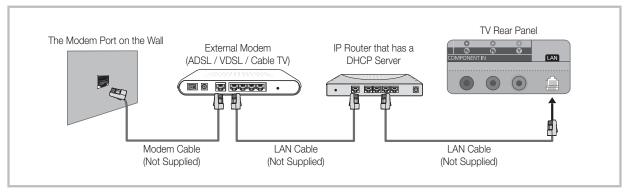

- Authentication Mode: OPEN, SHARED, WPAPSK, WPA2PSK
- Encryption Type: WEP, TKIP, AES

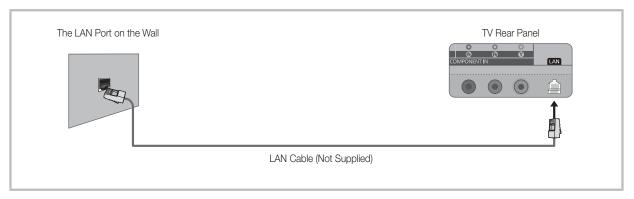

If you select Pure High-throughput (Greenfield) 802.11n mode and the Encryption type is set to WEP or TKIP on your AP or wireless router, Samsung TVs will not support a connection in compliance with new Wi-Fi certification specifications.

Network Connection - Wired

There are three main ways to connect your TV to your network using cable, depending on your network setup. They are illustrated starting below:

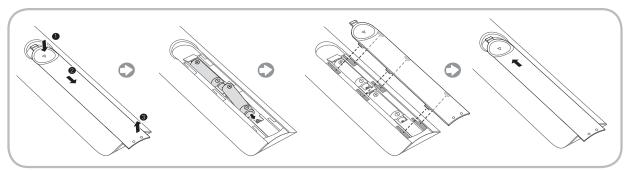

- ☼ The TV does not support network speeds less than or equal to 10Mbps.
- Subsection Strates Strates

The Remote Control

Installing batteries (Battery size: AAA)

Match the polarity of the batteries to the symbols in the battery compartment.

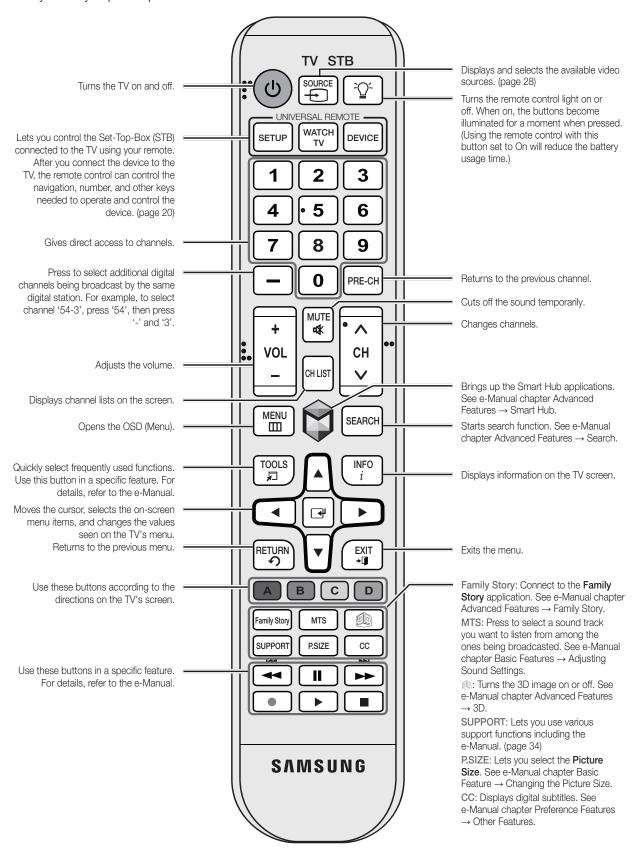

NOTE

- Install the batteries so that the polarity of the batteries (+/-) matches the illustration in the battery compartment.
- Use the remote control within 23 feet of the TV.
- Bright light may affect the performance of the remote control. Avoid using it near fluorescent lights or neon signs.
- The color and shape of the remote may vary depending on the model.

The Remote Control Buttons

Learn where the function buttons are on your remote. Especially note SOURCE, MUTE, VOL, CH, MENU, TOOLS, , INFO, CH LIST, RETURN, and EXIT.

This remote control has Braille points on the Power, Channel, and Volume buttons and can be used by visually impaired persons.

Setting up Universal Remote with The Universal Remote Setup Application

- If your remote controller buttons does not work, please set your remote to TV mode by using the DEVICE button.
- 1. To set up Universal Remote, press the SETUP button on your remote.
- 2. To identify your remote, press and hold the **SETUP** button for 8 seconds. If you use this function for the first time, the END USER LICENSE AGREEMENT screen appears.
- 3. Press the 🖪 button to select AGREE. It is required to agree with the terms prior to using Universal Remote.
- 4. Select a remote control you have. The remote option menu screen appears.
- 5. Select Set up a device to control. The Select a device screen appears.
- 6. Select an external device you want to connect. The Input Source screen appears.
- 7. Select a port that the external device is connected to the TV. The **Brand** screen appears. If your TV cannot find an external device, please check your external device connection, and then try again by selecting **Refresh**.
- 8. Select a brand name of the external device you have. The **Model** screen appears. To search a brand name, select **Search brands**. The QWERTY keypad screen appears. Input a brand name using the QWERTY keypad screen. When done, select **Done**. Wait until the search is completed and then select a brand name in the search result.
- 9. Select SEARCH MODEL. The QWERTY keypad screen appears. Input a model number in the same way as Step 8, and then select a model number you have in the search result list. If you can't find the model, select Recommendation. The TV progresses a test using the code set of the brand you selected. If you select Recommendation, go to Step 11. If you select a model in the search result list, go to Step 13.
- 10. The Test screen appears. Press and hold the SETUP button for 3 seconds. Numbers appears on the screen.
- 11. Enter the following numbers using your remote. The button test screen appears.
- 12. Press the VCH A button to test your remote. If your external device working, select YES to register the device. If you external device is not work, select NO. If you select NO, the TV changes the code data, and then the Test screen reappears. Try again Steps 10 to 12.
 - If all the code data do not work, please check the brand name or search a model name of your external device again.
- 13. Your external device has been setup successfully.
- When you use the BD home theater by using Universal Remote, some buttons may not be supported. In this case, we recommend to use **Anynet+ (HDMI-CEC)** function.

Setting up Universal Remote with Universal Remote Code Set

If your remote controller buttons does not work, please set your remote to TV mode by using the **DEVICE** button.

- 1. To set up Universal Remote, press the **SETUP** button on your remote for 3 seconds. All the LEDs on the top of your remote blink twice simulaneously.
- 2. Press the 1 button on your remote to select a Set-top box.
- 3. Press the number button corresponding to the port of device connected.
 - Port numbers are as follows:

1	2	3	5	7
HDMI 1/DVI	HDMI 2	HDMI 3	AV	Component

- 4. Enter Universal Remote Code corresponding to device you have.
 - For more detailed information about Universal Remote Code, refer to "Universal Remote Code Set list" on page 22.
- 5. When done, all the LEDs on the top of your remote blink twice simultaneously.
- **6.** Set your remote to STB mode by using the **DEVICE** button, and then test your remote. If you external device is not work, try again Steps 2 to 4 by using another Universal Remote Code.
 - Each time you press the number button, one of the LED blinks. You can check input result through the LED on the top of your remote. If you press the button too fast, Universal Remote Code may not input correctly.

Using your remote as a Universal Remote

In Universal Remote mode, you can use your remote to control your TV and STB together, your TV alone, or your STB alone. When you have set your remote to control your TV and STB, certain buttons control the TV only and certain buttons control the STB only.

Controlling the TV and STB Together

To control your TV and STB together, press the **WATCH TV** button at the top center of your remote. The TV and STB LEDs go on and off. If the TV is on, it automatically changes to the source the STB is connected to.

You can control the TV and Set-Top box using the universal remote. (For example, press the Volume button to adjust the TV volume, press the channel button to change the STB channels, etc.)

- See the illustration to the right. When you are using the remote as a universal remote, the buttons demarcated for TV control the TV only and the buttons demarcated for STB control the set top box only.
- To turn only the TV off, press the DEVICE button, change to TV mode, and then press the ♂ button. To turn only the STB off, press the DEVICE button, change to STB mode, andthen press the ♂ button. To turn the TV and the STB off, press the ♂ button and hold it for two seconds.

TV STB 1 2 3 4 5 6 7 8 9 — 0 mco — 0 mco — 0 mco — 0 mco — 1 0 mco — 2 1 0 mco — 2 1 0 mco — 3 1 0 mco —

Controlling the TV only.

Press the **DEVICE** button and change to TV mode. The TV LED goes on and off. You can only control the TV using the universal remote.

Controlling the STB only

Press the **DEVICE** button and change to STB mode. The STB LED goes on and off. You can only control the Set-Top box using the universal remote.

To initializing (reset) the Universal Remote Control

Initializing erases the current code set from the remote control's memory.

- 1. Press the SETUP button for 3 seconds. All the TV and STB LEDs on the top of your remote blink twice simultaneously.
- 2. Press in sequence: 9, 8, 1.
- **3.** The TV and STB LEDs on the top of your remote blink once simultaneously, and then the Universal Remote Control initializes.

Configuring the Basic Settings in Initial Setup

When you turn the TV on for the first time, a sequence of screens and on-screen prompts will assist you in configuring the TV's basic settings. Plug the power cord into a wall outlet, and then press the \circlearrowleft button to turn on the TV.

- Setup is available only when the input source is set to TV. See "Changing the Input Source" (page 28).
- Solution To return to the previous step in the Setup sequence, select Previous.
- If you are not using a cable box or satellite box, make sure you have connected the TV to an antenna or cable connection before you turn on the TV. See page 10 for instructions.
- If you want to configure a wired network connection during **Setup**, make sure you've connected a LAN cable to your TV. See pages 17 for instructions. If you want to configure a wireless network connection during **Setup**, make sure your wireless modem or router is on and working.

Menu Language: Select a Language.

After you press the 🖒 button, the Start screen appears. Select **Next** to continue. The Menu Language screen appears. Select the menu language you want using your remote, and then select **Next**. The TV will display on-screen menus using the language you select beginning with the next step in the **Setup** process.

2 Use Mode: Select the Home Use Mode.

On the **Use Mode** screen, select the **Home Use** using your remote, and then select **Next**. The Network Settings screen appears.

- Store Demo is for retail environments only. If you select Store Demo, some functions will not work, and the TV will reset all functions to their factory default after a certain period of time. For more information about Store Demo, go to the end of this section.
- 3 Network Settings: Configure the network settings
 - To configure later, select **Skip**. You can set up the network connection later using the onscreen **Network** menu.

To configuring your network settings, select **Start** using your remote, and then go to 3A - **Wireless Network** or 3B - **Wired Network** on the next page.

If you do not know your network configuration information or want to configure the settings later, or do not have a network, select **Skip**, and then go to 6 - **Auto Program** (1) on page 26.

To configure network settings later, refer to "Setting up the Wired or Wireless Network" in the e-Manual or see the Network Connection sections in this manual (pages 16 and 32).

3A

Wireless Network

- The TV searches for and then displays all the wireless networks within range. When done, it displays a list of the networks. In the list of networks, move the Highlight to select a network, and then select Next. If the selected network requires a Security Key, the Security Key screen appears.
 - If you have a WPS(PBC) compatible router, select WPS(PBC) instead, and then follow the directions on the screen. When done, go to Step 4.
- 2. Enter your network security key or WPS PIN using your remote.
 - Enter numbers and letters using your remote.
 - You can enter numbers by pressing the number buttons on the remote.
 - To enter a letter, move the Highlight to the letter, and then select it. You can enter numbers in the same fashion if you choose.
 - To display capital letters (or redisplay small letters if capital letters are displayed), select **Caps** or **Shift**.
 - Solution To display symbols and punctuation, select ★. To redisplay letters, select ★ again.
- 3. When done, select **Next** if you have entered a security key or **WPS PIN** if you have entered a WPS PIN.
- 4. The TV checks the wireless connection. If the connection is successful, the You are connected to the Internet. If you have any problems using online services, please contact your Internet Service Provider. message appears. Select Next, and then go to 4 Software Upgrade Step.
 - If the connection fails, select **Previous**, repeat Step 1 and 2, carefully re-enter your security key or WPS PIN, then repeat Steps 3 and 4. If it fails again, select **Next** on the "Connection Failed" screen, and then go to 6 **Auto Program** (1) on the next page. Configure your network later through **Network Settings** in the TV's Menu. For more information, refer to "Setting up the Wired or Wireless Network" in the e-Manual or see the Network Connection sections in this manual (pages 16 and 32).

3_B

Wired Network

The TV checks the network connection, then displays the **You are** connected to the Internet. If you have any problems using online services, please contact your Internet Service Provider. message appears. Select **Next**. The **Software Upgrade** screen appears.

Software Upgrade: When Network Settings is complete, your TV will check for a new Update the software software version automatically. If new software is available, the TV to the latest version downloads and installs the new software. When the download is complete, select Next. To update later, select Skip. If you want to upgrade later, select Skip. For more information, refer to **Software Update** (Preference Features → Support Menu) in the e-Manual. This may take some time, depending on your network status. You can only upgrade software if your TV has an active network connection. If no new update software is available, a no new updates message appears on the screen. Select **OK**. Terms of Service The **Terms of Service Agreement** screen appears. 5 Agreement The screen can take a few seconds to display. The **General Disclaimer** screen appears. Select **Agree**. The **Privacy** Policy screen appears. Select Agree. To use Smart Hub, you must select Agree for the Terms of Service Agreement. Auto Program (1): Select the appropriate option for your TV using your remote, and then 6 Select where your select Next. TV signal comes • I use an aerial cable to connect to TV.: Select if you have an from. antenna or a cable connection without a set-top box. If you select this option, go to 7 - Auto Program (2) Step. • I use a set-top box.: Select if you have a satellite or cable set-top box. You do not need to run Auto Program. If you select this option, go to 9 - Clock on the next page. Auto Program (2): 1. Select Air or Cable using your remote. A check appears on your Select the search selection. When done, select **Next**. You can check both if you have options. both connected. 2. If you selected Air, go to 8 - Auto Program (3). 3. If you selected Cable, you'll go to the cable system screen. Select **Digital Cable System**. The option window appears. Select the correct cable signal format; STD, HRC, or IRC. Most cable systems use STD (Standard). Repeat the same process with Analog Cable System.

4. When done, select Next.

8	Auto Program (3): Channel memorization	Channel memorization stars. Channel memorization can take up to 45 minutes, depending on your cable system. For more information, refer to Auto Program (Channel Menu → Memorizing Channels) in the e-Manual. Select Stop at any time to halt the memorization process.
9	Clock: Set the Clock	Select Auto or Manual, and then select Next. If you selected I have a set-top box. in 6 - Auto Program (1), you can only set the current time and date manually, using your remote. Auto If you selected Auto, the TV will automatically download the correct time from a digital channel. The Time Zone screen will appear. Select your Time Zone, and then select Next. The DST (Daylight Savings Time) screen will appear. The DST function sets the time ahead one hour to adjust the clock for Daylight Savings Time. Select On if you want to turn the DST adjustment on. Select Off to turn off the DST adjustment. You can also turn the DST function on through the TV's on screen menu (Menu → System → Time → Clock → DST). Manual If you selected Manual, you'll go to the Clock screen. Select Date or Time. You can set the current date and time using your remote. When done setting the Date and Time, select Next.
10	Setup Complete	Review the Setup data, and then select Close to finish. The completed settings are displayed.

If You Want to Rerun Setup...

 $Menu \to System \to Setup$

If You Want to Turn the Store Demo Mode On or Off.

To set or unset **Store Demo** mode outside of **Setup**, press and release the Controller when the power is on. The Function menu screen appears. Push the Controller to the left (to **MENU** (III)) and hold for more than 5 seconds. The **Store Demo** mode is set. To cancel **Store Demo**, bring up the Function menu using the Controller, push the Controller to the right (to **Source** (+)) and hold for more than 5 seconds. See page 30 for information about the Controller.

Changing the Input Source

Source

⊗ → Source

When you are watching TV and you want to watch a movie on your DVD player or Blu-ray player or switch to your cable box or STB satellite receiver, you need to change the Source.

- TV / HDMI1/DVI / HDMI2 / HDMI3 / AV / Component
- 1. Press the button on your remote. The **Smart Hub** screen appears.
- 2. Select Source. The Source screen appears.
- 3. Select a desired external input source.
- Alternatively, you can access the **Source** screen by pressing the **SOURCE** button on your remote.
- You can only choose external devices that are connected to the TV. In the displayed Source list, connected inputs are highlighted.

How to Use Edit Name

Edit Name lets you associate a device name to an input source. To access **Edit Name**, press the **TOOLS** button on your remote when the **Source** list is displayed. The following selections appear under **Edit Name**:

- VCR / DVD / Cable STB / Satellite STB / PVR STB / AV Receiver / Game / Camcorder / PC / DVI PC / DVI Devices / TV / IPTV / Blu-ray / HD DVD / DMA: Select an input jack, and then select the name of the device connected to that jack from the list that appears. For example, if you have your Blu-ray player attached to HDMI IN 2 (ARC), select Blu-ray for that input.
- If you connect a PC to the HDMI IN 1 (DVI) port with an HDMI cable, assign PC to HDMI1/DVI in Edit Name.
- If you connect a PC to the HDMI IN 1 (DVI) port with an HDMI to DVI cable, assign DVI PC to HDMI1/DVI in Edit Name.
- If you connect an AV device to the HDMI IN 1 (DVI) port with an HDMI to DVI cable, assign DVI Devices to HDMI1/DVI in Edit Name.

Information

You can see detailed information about the selected external device.

Refresh

If the external devices are not displayed in the **Source** list, open the **Tools** menu, select **Refresh**, and then search for the connected devices.

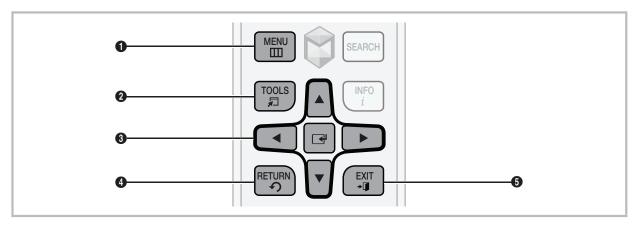

Alternatively, you can refresh the **Source** list by pressing the **A** button on your remote.

How to Navigate Menus

Your TV's Main and Tools menus contains functions that let you control the TV's features. For example, in the Main menu you can change the size and configuration of the picture, its brightness, its contrast and so on. There are also functions that let you control the TV's sound, channel configuration, energy use, and a host of other features. To access the main, on-screen menu, press the MENUIII button on your remote. To access Tools menus, press the TOOLS Tould button. Tools menus are available when the TOOLS menus loon is displayed on the bottom right of the screen

The illustration below displays the buttons on the remote you use to navigate the menus and select and adjust different functions.

- 1 MENU button: Displays the main on-screen menu.
- 2 TOOLS 1 button: Displays the Tools menus when available.
- 3 degree and Direction buttons: Use the Direction buttons to move the cursor and highlight an item. Use the Enter button to select an item or confirm the setting.
- 4 RETURN'S button: Returns to the previous menu.
- **5** EXIT→ button: Exits the on-screen menu.

How to Operate the Main Menu (OSD - On Screen Display) Using the Remote

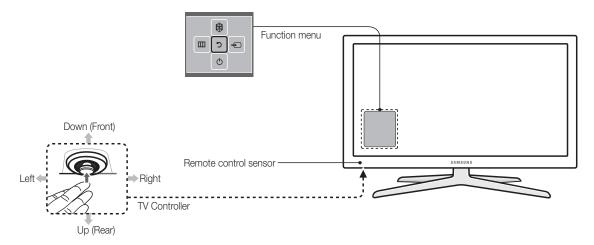

The access steps may differ depending on the menu option you select.

	1	MENUIII	The main menu options appear on the screen:
	١.		Picture, Sound, Channel, Network, System, Support.
4	2	▲/▼	Select a main menu option on the left side of the screen with the ▲ or ▼ button.
4	3	4	Press 🖪 to access the sub-menus.
4	4	▲/▼	Select the desired submenu with the ▲ or ▼ button.
	5	▲ /▼/ ∢ /▶	Adjust the value of an item with the ◀, ▶, ▲, or ▼ button. The adjustment in the OSD may differ depending on the selected menu.
	6	4	Press 🖪 to confirm the selection.
	7	EXIT+	Press EXIT→□.

Using the TV's Controller (Panel Key)

The TV's Controller, a small joy stick like button on the bottom left side of the TV, lets you control the TV without the remote control.

☼ The product color and shape may vary depending on the model.

- Sollow these instructions facing the front of your TV.
- When selecting the function by moving the controller to the up/down/left/right directions, be sure not to press the controller. If you press it first, you cannot operate it to move the up/down/left/right directions.

Power on	Turn the TV on by pressing the Controller when the TV is in standby mode.
Adjusting the volume	Adjust the volume by moving the Controller from side to side when the power is on.
Selecting a channel	Select a channel by moving the Controller backwards and forwards when the power is on.
Using the Function menu	To view and use the Function menu, press and release the Controller when the power is on. To close the Function menu, press and release the Controller again.
Selecting the SMART HUB (🕅)	With the Function menu visible, select SMART HUB () by moving the Controller backwards. The SMART HUB main screen appears. Select an application by moving the Controller, and then pressing the Controller.
Selecting the MENU (IIII)	With the Function menu visible, select the MENU (III) by moving the Controller to the left. The OSD (On Screen Display) Menu appears. Select an option by moving the Controller to the right. Move the Controller to the right or left, or backwards and forwards to make additional selections. To change a parameter, select it, and then press the Controller.
Selecting a Source ()	With the Function menu visible, open the Source (-) list by moving the Controller to the right. The Source list screen appears. To select a source, move the Controller back and forth. When the source you want is highlighted, press the Controller.
Power Off (🖰)	With the Function menu visible, select Power Off (🖰) by moving the Controller forwards, and then press the Controller.

Source To close the Menu, Smart Hub, or Source, press the Controller for more than 1 second.

Standby mode

Your TV enters Standby mode when you turn it off and continues to consume a small amount of electric power. To be safe and to decrease power consumption, do not leave your TV in standby mode for long periods of time (when you are away on vacation, for example). It is best to unplug the power cord.

Using Smart Hub

Smart Hub provides easy, on-screen access to five functions that let you manage and access channels, set favorite channels, access photos, videos, or music on USB devices, cameras, and PCs, select video sources, and set the TV to turn on automatically when a show you want to watch is on. The five functions are listed below:

- Channel: Lets you manage channels, select favorite channels, add channels to and delete channels from the Added Ch. list (the channels that appear when you press the ∨ CH ∧ button.)
- Web Browser: Lets you browse the Internet.
- Schedule Manager: Lets you schedule shows and channels for viewing.
- Source: Lets you select a connected external video source to view.
- AllShare Play: Lets you access, view, or play photos, videos, or music located on USB devices, digital cameras, cell phones, and PCs. PCs and cell phones can be accessed wirelessly, through your wireless network.

Smart Hub also provides an easy-to-use gateway to a host of on-line media and entertainment including apps from the Samsung Apps store, streaming videos and movies, kids sites, and more.

- To access Smart Hub, press the
 button on your remote.
- Solution For more information about **Smart Hub**, see the e-Manual.

Configuring Network Connections

After you have run the initial setup, you can configure or reconfigure the network connections through the TV's menu.

Configuring a Wireless Network Connection

The instructions below are for networks that use the Dynamic Host Configuration Protocol (DHCP) to configure network connections automatically. Most wireless networks use DHCP. If you have a Static IP network, see the e-Manual for configuration instructions.

To configure the network connection for a network that uses DHCP, follow these steps:

- **1.** Connect your TV to your network as shown in the illustration on page 16.
- 2. Turn on your TV, and then go to the **Network Settings** screen. (**Menu** → **Network** → **Network** Settings)
- 3. Select **Start**. The Network function searches for available wireless networks. When done, it displays a list of the available networks.
- 4. In the list of networks, move the highlight to select a network, and then select Next.
 - If you have a WPS(PBC) compatible router, select WPS(PBC) instead, and then follow the directions on the screen.
- **5.** Enter your network security key or WPS PIN using your remote.
 - Enter numbers and letters using your remote.
 - Enter numbers by pressing the number buttons on your remote.
 - To enter a letter, move the Highlight to the letter, and then select it. You can enter numbers in the same fashion if you choose.
 - To display capital letters (or redisplay small letters if capital letters are displayed), select Caps or Shift.
 - 🖎 To display symbols and punctuation, select ★. To redisplay letters, select ★ again.
- 6. When done, select Next if you have entered a security key or WPS PIN if you have entered a WPS PIN.
- 7. The TV checks the wireless connection. If the connection is successful, the "You are connected to the Internet. If you have any problems using online services, please contact your Internet Service Provider." message appears. Select Next using your remote.
 - For more detailed information, see "Setting up the Wireless Network" in the e-Manual.
 - If you want to configure the connection manually, select IP Settings on the Network Connection screen. Set IP Mode to Manual, and then enter the IP Address, Subnet Mask, Gateway, and DNS Server manually.

Configuring a Wired Network Connection

Most home networks use the Dynamic Host Configuration Protocol (DHCP) to configure network connections. Home networks that support DHCP automatically provide the IP address, subnet mask, gateway, and DNS values your TV needs to access the Internet so you don't have to enter them manually. If you have a Static IP network, see your user's manual for configuration instructions.

To configure the network connection for a wired network that uses DHCP, follow these steps:

- 1. Connect your TV to your network as shown in one of the illustrations on page 17.
- 2. Turn on your TV, and then go to the **Network Settings** screen. (**Menu** → **Network** → **Network** Settings)
- 3. Select Start.
- 4. The Network Connection screen appears, and verifies the network connection. When the connection has been verified, the "You are connected to the Internet. If you have any problems using online services, please contact your Internet Service Provider." message appears. Network set up is completed.
- If your TV cannot acquire network the connection values automatically or if you want to set the connection manually, select IP Settings on the network connection screen. Set IP Mode to Manual, and then enter the IP Address, Subnet Mask, Gateway, and DNS Server manually.
- Solution For more detailed information, refer to "Setting up the Wired Network" in the e-Manual.

How to view the e-Manual

You can find instructions for your TV's features in the e-Manual. To open the e-Manual, press the **SUPPORT** button on your remote.

You can also access it through the menu:

 $Menu \to Support \to e\text{-}Manual$

Access the e-Manual

To use the e-Manual, follow these steps:

- 1. When you need to help, press the **SUPPORT** button on your remote. The **Support** screen appears.
- 2. Select e-Manual using your remote. The e-Manual screen appears.
- 3. Select a desired category.
- **4.** Select a desired topic. The e-Manual displays the page you want to see.
- Blue words in e-Manual signify menu options or selections on TV screen.
- Green icons in the e-Manual signify a button on your remote.
- Arrow steps (e.g. Menu → Support → e-Manual) in the e-Manual signify the sequence of steps required to access an option or activate a function.

How to toggle between an e-Manual topic and the corresponding OSD menu(s).

- This function is not enabled in some menus.
- Nou can't use the **Try Now** function if the menu is not available.
- 1. To go to the topic's corresponding menu option, press the A button on your remote.
- 2. To return to the e-Manual screen, press the SUPPORT button on your remote.

Using the colored and function buttons with the e-Manual

- Scroll bar: Scroll the e-Manual screen up or down.
- ◀ / ▶: Moves to the previous or next chapter.
- A Try Now: Move to the OSD menu that corresponds to the topic. To return to the e-Manual screen, press the SUPPORT button on your remote.
- **B** Home: Moves to the e-Manual home screen.
- **©** Position: Each time you select **©**, you change the position of the e-Manual screen.
- **D** Index: Displays the Index screen.
- **D** Return: Return to the previous screen.

How to search for a topic on the index page

- 1. Select **D** using your remote. The Index screen appears.
- 2. To search for a topic, select a letter. The Index displays a list of topics and keywords that begin with the letter you selected.
- 3. Select a topic or keyword you want.
- **4.** The e-Manual page with the topic appears.
 - ☼ To close the Index screen, press the RETURN'S button.

To Change the screen position of the e-Manual

If the e-Manual screen is not invisible well because the OSD Menus screen, you can change the e-Manual screen's position.

- 1. Move the Highlight to the e-Manual screen by pressing the SUPPORT button on your remote.
- 2. Press the button on your remote. Each time you select , the position of the e-Manual will change.

Troubleshooting

If the TV seems to have a problem, first review this list of possible problems and solution. Also review the Troubleshooting Section in the e-Manual. If none of the troubleshooting tips apply, visit www.samsung. com/support or call Samsung Customer Service at 1-800-SAMSUNG (1-800-726-7864).

Issues	Solutions and Explanations
Flickering and Dimming	If your Samsung Television is flickering or dimming sporadically, you may need to disable some of its energy efficient features such as the Eco Sensor or the Energy Saving feature. Follow the steps below with your remote to turn these features off or on.
	• Energy Saving: User Menu → System → Eco Solution → Energy Saving
	• Eco Sensor: User Menu \rightarrow System \rightarrow Eco Solution \rightarrow Eco Sensor
Component Connections / Screen Color	If you find that the color on your Samsung television's screen is not correct or black and white, first run a Self Diagnosis on the TV to make sure there are no device issues.
	• Self Diagnosis: User Menu → Support → Self Diagnosis → Picture Test
	If the problem does not appear in the Picture test, make sure:
	Your connections are all consistent. For example, if you've used the AV In jack on your TV, make sure you have used the AV Out jack on your video source.
	You have connected your devices to the correct jacks. For example, if you use the Component jacks, labeled Pb, Pr, and Y, to connect your TV and video source, make sure you have connected the blue Pb jack on the video source to the blue Pb jack on the TV, and the yellow Y jack on the source to the yellow Y jack on the TV.
Screen Brightness	If you find that the colors on your Samsung TV are correct but just a little too dark or bright, try adjusting the following settings in the Picture menu option of the Main menu:
	Cell Light, Contrast, Brightness, Sharpness, Color, Tint (G/R) and so on.

Issues	Solutions and Explanations
Unwanted Powering Off	If your Samsung TV appears to turn off by itself, there may be an issue with either your Timer settings or your Eco friendly No Signal Power Off feature.
	First make sure Sleep Timer is not accidentally set. The Sleep Timer turns off the TV automatically after a certain period of time has passed.
	• Sleep Timer: User Menu \rightarrow System \rightarrow Time \rightarrow Sleep Timer
	If the Sleep Timer is not activated, you may have engaged the No Signal Power Off or Auto Power Off feature.
	No Signal Power Off: User Menu \rightarrow System \rightarrow Eco Solution \rightarrow No Signal Power Off
	 Auto Power Off: User Menu → System → Eco Solution → Auto Power Off
Trouble Powering On	Before you turn the TV on, find the red light on the right or left bottom of your TV. Press the Power on button on the TV or remote. The light should blink about 5 times before the TV turns on.
	If you find that you are having trouble powering on your Samsung television, there are a number of things to check before making a call to the service department.
	If you're sure your power cord, remote control, and PC are functioning properly, you may be having a cable issue. If you have a cable or satellite box, your TV may appear to be off because the cable or satellite box is not outputting a signal. To test the signal output of your cable or satellite box, press the guide or info button on the cable or satellite box remote control. If the screen displays the guide or info data, the problem is caused by the box.
Stand Assembly	If you have any trouble assembling the stand first, review "Install the Stand" in the paper manual.
Cannot Find a Channel	Re-run Setup (Go to User Menu → System → Setup) or run Auto Program. (Go to User Menu → Channel → Auto Program).

 $^{\ \ \, \ \ \, \ \ \,}$ For detailed troubleshooting information, watch the troubleshooting videos at www.samsung.com/spsn.

Issues	Solutions and Explanations
The TV won't turn on.	Make sure the AC power cord is securely plugged in to the wall outlet and the TV.
	Make sure the wall outlet is working.
	• Try pressing the 🖒 button on the TV to make sure the problem is not the remote. If the TV turns on, refer to "Remote control does not work" below.
There is no picture/video.	Check the cable connections. Remove and reconnect all cables connected to the TV and external devices.
	Set the video outputs of your external devices (Cable/Sat Box, DVD, Blu-ray etc) to match the TV's input connections. For example, if an external device's output is HDMI, it should be connected to an HDMI input on the TV.
	Make sure your connected devices are powered on.
	Be sure to select the correct input source
	Reboot the connected device by unplugging it, and then reconnecting the device's power cable.
The remote control does not work.	Replace the remote control batteries. Make sure the batteries are installed with their poles (+/–) in the correct direction.
	Clean the sensor's transmission window on the remote.
	Try pointing the remote directly at the TV from 5~6 feet away.
The cable/set top box remote control doesn't turn the TV on or off, or adjust the volume.	Program the Cable/Set remote control to operate the TV. Refer to the Cable/Set-Top-Box user manual for the SAMSUNG TV code.

Some functions and pictures shown in this manual are available on specific models only.

 $[\]$ To keep your TV in optimum condition, upgrade to the latest firmware on the Samsung web site by USB (samsung.com \rightarrow Support \rightarrow Downloads).

Storage and Maintenance

- If a sticker was attached to the TV screen, some debris can remain after you remove the sticker.
 Please clean the debris off before watching TV.
- The exterior and screen of the product can get scratched during cleaning. Be sure to wipe the exterior and screen carefully using the cloth provided or a soft cloth to prevent scratches.

Do not spray water directly onto the product. Any liquid that goes into the product may cause a failure, fire, or electric shock.

Clean the product with a soft cloth dampened with a small amount of water. Do not use a flammable liquid (e.g. benzene, thinners) or a cleaning agent.

Securing the TV to the Wall

Caution: Pulling, pushing, or climbing on the TV may cause the TV to fall. In particular, ensure your children do not hang over or destabilize the TV. Doing so may cause the TV to tip over, causing serious injuries or death. Follow all safety precautions provided in the Safety Flyer included with your TV. For added stability and safety, you can purchase and install the anti-fall device as described below.

The TV-Holder Kit (Sold Separately):

The parts below are included in the TV Holder kit. In addition, you need to provide a wood screw, screw and molly, or other screw appropriate for the wall or cabinet you intend to secure the TV-Holder string to. We recommend a size M4xL20 wood screw.

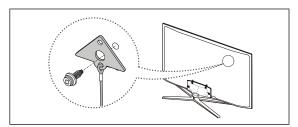

TV-Holder (BN96-15753A)

Screw (M8 X L19)

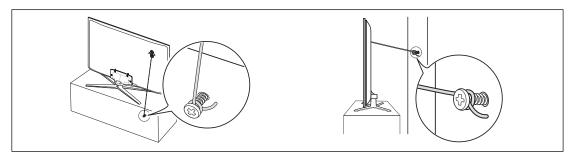

Installing the TV-Holder

- 1. Remove the screw attached to the back of your TV, and then connect the TV-Holder to the TV with the screw included in the TV-Holder Kit that is designated for your TV.
 - Make sure to use only the appropriate supplied screw. If you use a different screw, you can damage your TV.

- 2. Firmly fasten the screw you provided (size M4xL20 or similar) to the wall or cabinet where the TV is to be installed.
 - If you fasten the screw to the wall, we recommend you drive the screw into a stud. If that is not possible, use a molly to anchor the screw.

- **3.** Tie the TV-Holder cord to the screw fastened to the wall or cabinet so that the TV is fixed. See the illustrations below.
 - Install the TV close to the wall so that it does not fall.
 - When attaching the TV-Holder cord to the wall, tie the cord level with the ground or slanted downwards for safety purposes.
 - Check the cord occasionally to make sure it is secure.
 - Before moving the TV, separate the connected cord first.

4. Verify all connections are properly secured. Periodically check the connections for any sign of fatigue or failure. If you have any doubt about the security of your connections, contact a professional installer.

To purchase the TV-Holder Kit, contact Samsung Customer Care

Other Restriction

- Nideo content will not play, or not play correctly, if there is an error in the content or the container.
- Sound or video may not work if the contents have a standard bit rate/frame rate above the compatible Frame/sec listed in the table above.
- If the Index Table is damaged, the Seek (Jump) function is not supported.
- When you play video over a network connection, the video may not be played smoothly.
- ☼ The menu may take longer to appear if the video's bit rate exceeds 10Mbps.
- Some USB/digital camera devices may not be compatible with the player.

Video decoder

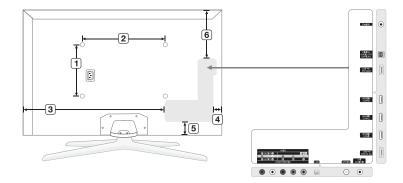

- Supports up to H.264, Level 4.1
- H.264 FMO / ASO / RS, VC1 SP / MP / AP L4 and AVCHD are not supported.
- For all Video codecs except MVC, VP8, VP6:
 - Below 1280 x 720: 60 frame max
 - Above 1280 x 720: 30 frame max
 - GMC 2 over is not supported.
- Supports only SVAF Top/Bottom and Side by Side.
- Supports only BD MVC Spec.

Audio decoder

- WMA 10 Pro supports up to 5.1 channel. WMA lossless audio is not supported.
- RealAudio 10 lossless is not supported.
- QCELP, AMR NB/WB are not supported.
- If Vorbis is only in Webm container, supports up to 2 channel.

Assemble Stand before removing TV from shipping box

Installing the TV Stand

Components

When installing the stand, use the provided components and parts.

x4 (M4 X L10)

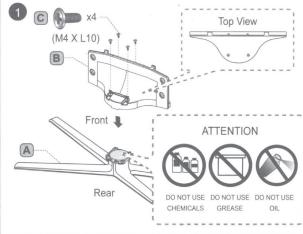

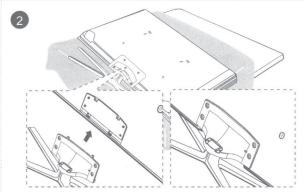

x4 (M4 X L12)

Stand (depending on the model)

Guide Stand

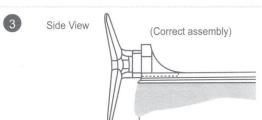

Screws

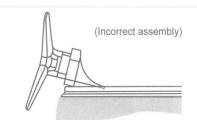

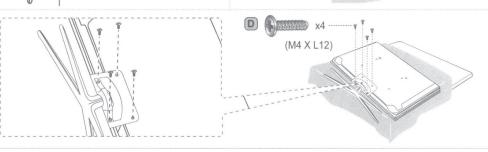

Place a soft cloth over the table to protect the TV, and then place the TV on the cloth screen side down.

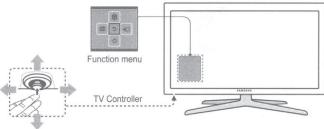

Insert the Stand Guide into the slot of TV bottom side.

Caution

- > Make sure to distinguish between the front and back of each component when assembling them.
- > Make sure that at least two persons lift and move the TV.

SMART TV QUICK SETUP GUIDE

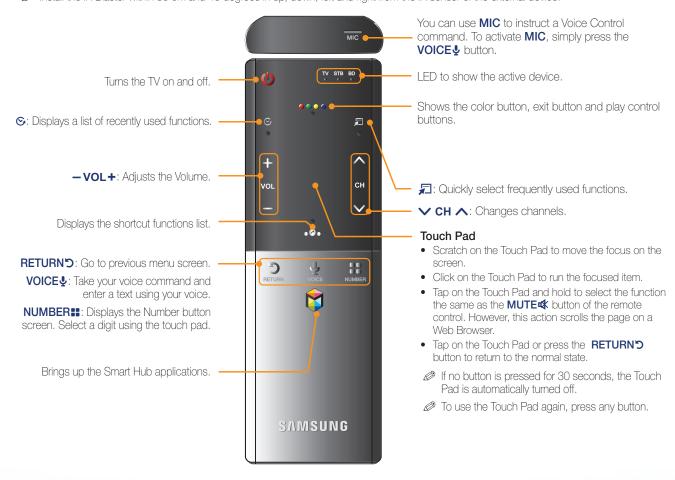

Smart Touch Control

Improved user convenience has been provided so that you can switch the channel and adjust the volume with just your fingertips while focusing on the TV screen. In addition, the built-in touch pad removes the need for a mouse when you change the menu settings and search for something on the Internet.

- Ø For more detailed information about using the Smart Touch Control, refer to Smart Touch Control Guide (◆②◆ → Support □② → Smart Touch Control Guide).
- Ø Voice Control performance levels will vary based on the language spoken.
- Install the IR Blaster within 50 cm and 45 degrees in up, down, left and right from the IR sensor of the external device.

SMART Interaction (Voice and Motion Control)

Using this function, you can access and control menu options and functions using speech or motions.

- For more detailed information about Smart Interaction, see "Smart Interaction" in e-Manual or User manual.
- The illustration of the manual may vary from the actual shape partially.

Voice Control Environment

- We are recommended using Voice Control function within about 13 ft with your TV.
 You can check the usable distance by using Voice Control Environment Test (System → Voice and Motion Control → Voice Control Environment Test).
- · Voice Control function can be affected recognition by unclear pronunciation, voice level, or surrounding noise.

Motion Control Environment

We are recommended using Motion Control function within about 5 - 13 ft with your TV. TV Camera's recognition range may differ depending on the angle of camera or other conditions.

You can check the recognition range of TV camera by using Motion Control Environment Test (System → Voice and Motion Control → Motion Control → Motion Control Environment Test).

Voice Control

You can use only your voice to switch the channel or adjust the volume level while focusing on the TV screen, which removes the need for the conventional remote control.

Menu → System → Voice and Motion Control → Voice Control

- Set Voice Control to On.
- If you set Trigger Words to Hi TV, say "Hi TV", and then basic available commands such as TV Power Off are displayed on the screen.
- 3 To adjust the volume, simply say "Volume up" or "Volume down".
- To see more commands, say "More Commands".
- You can select the Trigger Words that start the Voice Control function. Alternatively you can turn on your TV using the Trigger Words if Voice Control function is set to On.
 - If the Trigger Words is set to Hi TV, say Hi TV Power On.
 - If the Trigger Words is set to Smart TV, say Smart TV Power On.

Motion Control

Use a specific motion to switch the channel or adjust the volume level as well as to move the mouse pointer to a desired position while in web surfing with Smart Hub.

Menu → System → Voice and Motion Control → Motion Control

- Set Motion Control to On.
- 2 Tyou use the Motion Control, raise your hand unfolding it toward the screen, hold it for a moment and then wave it 3~4 times to the left and right. Motion Control starts. If the Motion Control starts, the cursor is displayed at the center of the screen and the Motion Guide Bar is at the bottom of the screen.
- To switch the channel, point your hand to the channel up or down icon on the screen, and make a fist. If you hold the Run motion at the channel icon position, the channel will be changed continuously.
- Motion Control function can be affected recognition by user's location, motion posture, or ambient brightness conditions.

Smart Hub

Using Smart Hub, you can stream movies, videos, and music from the Internet, access various for pay or free of-charge applications and view them on your TV.

Application content includes news, sports, weather forecasts, stock market quotes, maps, photos, and games.

For more detailed information about Smart Hub, see "Smart Hub" in e-Manual.

The illustration of the manual may vary from the actual shape partially.

 $\textbf{Method 1} \quad \mathsf{Menu} \to \mathsf{Support} \to \mathsf{Smart} \; \mathsf{Hub}$

Method 2 Press the button on the remote control.

Main Features

You can search for various types of content that can be used on your TV.

Displays the current input source screen.

You can experience various service provided by Samsung.

Displays the recommended service by Samsung.

Displays notices, new applications, and advertisements brought to you by Samsung product introductions.

Displays the installed applications in the TV.

Operation button

• The displayed image may differ depending on the model.

Creating Your Samsung Account

If you have Samsung account, you can use Smart Hub easily.

- Press the button on the remote control, Press the red button on the remote control to display the Login window.
 - When using the Smart Touch Control, press the **Return's** button to close the button screen and use.
- 2 When the Login window appears, select the Create Account button.
- Move to the Samsung account field, and then press the ☐ button. A window appears with an entry screen and a keypad. The ID must be a valid e-mail address in the following format: sample@sample.com or sample@sample.net. The same password in the confirm password field in the same fashion.
 - If you have a Bluetooth or USB keyboard connected to the TV, enter your e-mail address using a Bluetooth or USB keyboard. When done, enter the password in the same way.
- ① After entering all items, move to the Create Account item, and then the ☐ button. Your account will be created.

Downloading an app from Samsung Apps

Samsung Apps is a store from which you can download applications to use on Samsung TV/AV equipment.

- 1 Press the button on the remote control, and select Samsung Apps on the screen.
- 2 Go to your desired category, and select an app.
- In the information screen for the selected app that appears, choose Download to install it.
- 4 After it is downloaded, choose Run to launch and enjoy it.
- You can find the icon of the newly installed app on the SMART HUB screen.
- Paid App in Samsung Apps Account registration is required.

^{*} Images and colors can be changed without prior notice.

Getting started with Skype

Make calls and video calls with Skype on your TV.

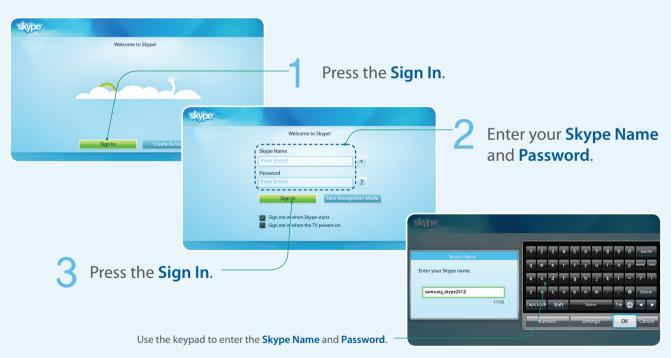

Make possible by SMART HUB - bringing useful and entertaining features directly from the web to your TV.

NOTE

- Connect your SAMSUNG webcam directly to the TV, not through a USB hub.
- If the webcam isn't working properly, turn the TV off then on again, and relaunch Skype.
- Skype is disabled when the TV is turned off.
- Voice quality may be affected in a noisy environment.
- Using a wireless network can degrade call quality.
- Use of the Skype software is subject to the Skype End User License Agreement (skype.com/legal/eula),
 Skype Terms of Service (skype.com/legal/tos) and the Skype Privacy Policy (skype.com/legal/privacy/general).
- If Skype is deleted, saved information (History and Options) is deleted.
- For help using Skype, visit skype.com
- You need to configure your network before using Skype on your TV. See instructions in this manual.
- The ring bell rings when someone calls to you while you watch the TV or operate the Skype application.
- To use Skype you need the TV camera. Please buy the TV camera of the SAMSUNG if you don't have the TV a built-in camera.
- TV camera launched in 2010 and the SAMSUNG TV launched in 2012 are incompatible.
- Only Skype version 4.2 or greater is supported on Windows-based PCs.
- Only Skype version 5.0 or greater is supported on Macintosh PCs.
- Not supported on Linux-based PCs.

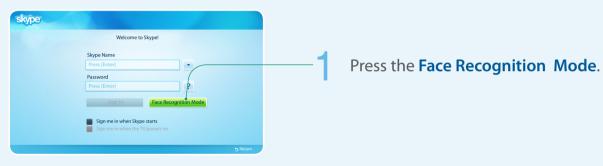

To sign in with an existing account

When running Skype on your TV for the first time, enter your **Skype Name** and **Password** or **Create Account**. If you can't login, check the network connection.

To sign in using Face recognition

- You can Sign in Skype using Face recognition on TV which supports SMART Interaction (Voice and Motion Control).
- ⚠ In order for Face recognition to function, a thumbnail image of your face will be stored in your TV for logging-in purposes.
- ⚠ Logging into the Skype using Face recognition does not provide as high a level of security as logging in with an ID and password.

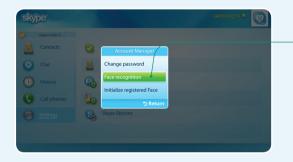

2 The TV starts Face recognition.

 Turn your face towards the TV with your face level with the camera. The TV will recognize your face automatically.

Face recognition

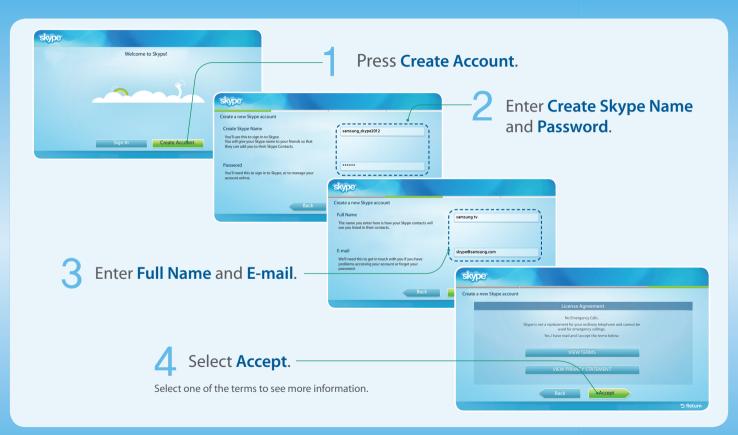

Select Settings → Account Manager → Face recognition.

The Face recognition screen appears.

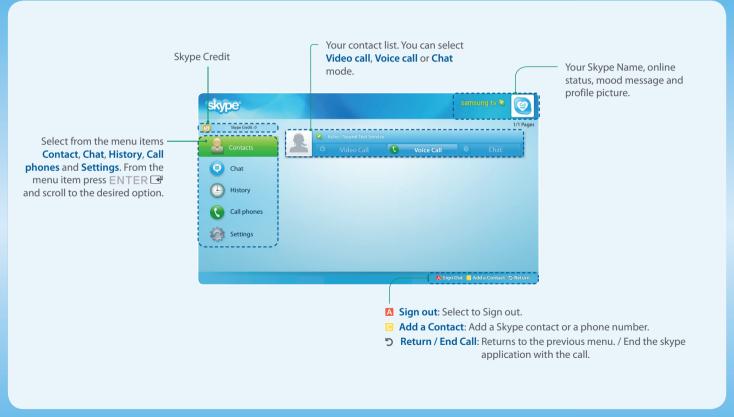

- Make sure that your face is in the center of the screen.
- Wait until the rectangle in the center of the screen turns green.

Creating new account

Screen display

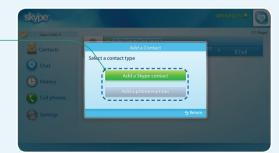

Adding a contact

Press Add a Contact.

Select one.

- Add a Skype contact: Enter the person's Skype name, full name or e-mail.
- Add a phone number: Enter the name and phone number.

To call a contact

Receiving

When in a video or voice call.

If a conference call comes in, the Video option is disabled.

- Hang up the call.
- **Stop Video**: Turns the camera off.
- Mic. Vol.: Adjusts the microphone volume.
- Hold / Resume: Hold/ Resume the call.
 - A Skype contact will see a notification message when they are put on hold.
- **Start Video**: Switches to a video call.
 - **B** (Full Screen): Switch to full screen.
 - D (Contact list): Displays the contact list.

History

Shows the history of calls you've made, listed from most recent to oldest, top to bottom respectively.

- View Profile: View the selected contact's profile.
- Send Voicemail: Send a voicemail message to the selected contact.
- Add to Contacts: Add this person as a contact. This option is available when you don't have this person saved in your Contact list.
- Block: Block this person from contacting you.
- Delete This Item: Remove this item from your History.
- Sign Out: Signs out.
- History can be limited by memory capacity.
- The time set on the TV is applied to the History.

Skype Options

Change the each option(s).

- General settings: Select whether you want Skype to launch automatically when you turn on the TV.
- Video settings: Adjust the privacy settings for video. Choose who you will
 receive video from by selecting Anyone, Only people in my Contact list or
 No one.
- Privacy Settings: Choose who you will receive calls from. Select Allow anyone to contact me or Only allow people in my Contact list.
- Blocked Users: If you don't want to hear from someone, block them by entering their Skype Name or phone number. Any blocked persons will be listed in this window. You can also block a person in the Contact and History lists by selecting the contact and pressing the TOOLS ☐ button.
- Call forwarding (diverting calls): To forward calls from your Skype account
 when you're not on Skype, add the phone numbers you want calls directed
 to. Select the country and enter the number with the area code. Enter the
 divert time to specify the delay before the call is diverted. You need to buy
 Skype Credit from skype.com to use this feature.
- Voicemail: This feature allows people to leave audio messages when you are away. You can listen to the messages wherever you are signed into Skype.
 For more information or to get voicemail, go to skype.com and click on Account.
- About Skype: View the Skype copyright information.

Voice and Motion Control

- You can call or manipulate in Skype using Voice and Motion Control on TV which supports SMART Interaction (Voice and Motion Control).
- You can't use Voice Control function When in a call.
- Voice Control function can be affected recognition by difficult to pronounce name such as including special characters or simple letters of the alphabet, numbers. You can change it by using Rename.
- For more detailed information about Smart Interaction, see "Smart Interaction" in e-Manual or User manual.

clicks

3D Active Glasses SSG-4100GB

User's Guide

Features

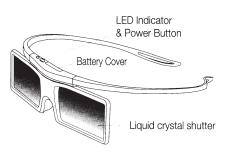

The SSG-4100 GB 3D glasses enable you to view 3D images. The Samsung 3D glasses communicate with Samsung 3D TVs via the 2.4GHz RF band.

The Samsung 3D glasses can be used only with for all 2011 and 2012 Samsung

D,E and ES series 3D TV, or a 3D TV product with the GLASSES or GLASSE logo on it, and can't be used with any other wireless communication products.

The "Full HD 3D Glasses™" Logo signifies compatibility between display products and 3D Glasses that are compliant with the "Full HD 3D Glasses™" format and does not indicate the picture quality of the 3D images visible using the glasses, which depends on the quality of the display products.

Parts

Components

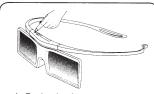

3D Active glasses (Frame body, Temples)

Button Battery (CR2025)

* For information on how to attach the temples and pairing method of the glasses, refer to page 11.

Pairing 3D Active Glasses

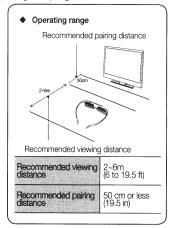

- What is Pairing? Pairing is a process of connecting 3D glasses and a 3D TV so that the two devices can exchange data.
- Ensure your Samsung TV and 3D glasses are no farther than 19.5 in (50 cm) apart from each another while pairing is in progress.

◆ Turning the glasses on

Press the power button briefly. The green LED is turned on for 3 seconds. (Make sure that 3D is activated on the TV before using the 3D glasses.)

- Turning the glasses off
 Press the power button briefly. The red LED is turned on for 3 seconds.
- Performing the pairing process.
 The green and red LEDs will blink for 2 seconds if pairing is in progress.

- The working distance depends on obstacles (a person, metal, walls, etc.) or electromagnetic waves.
- Turn off the 3D glasses while they are not in use. If you leave the 3D glasses on, the battery lifespan decreases.

Pairing steps

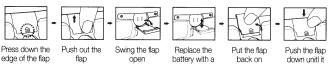

- Turn on the TV, and then move the glasses within 19.5 inches of the TV.
- Press the power button on the 3D glasses briefly. The 3D glasses will power on and pairing will start.
- The message "3D glasses are connected to TV." will be displayed on the TV screen when the pairing is successfully completed.
 - If the pairing failed, the 3D glasses will power off.
 - If the first attempt to pair fails, power the TV off and on again and perform step 2.
 - How to pair again: Press the power button on the 3D glasses for more than 1 seconds.

<Pairing is needed again in the following situations:>

- If the 3D glasses do not function even when the power button is pressed on the 3D TV after repair.
- If you want to view a 3D video on a different for all 2011 and 2012 Samsung D,E and ES series 3D TV.

Replacing the Batteries

If the red LED blinks every two seconds continually, replace the batteries with new ones.

new one

Please insert the battery in the same direction as indicated.

Viewing guidelines

- When viewing a 3D video under a fluorescent lamp (50 Hz 60 Hz) or 3-wavelength lamp, you may notice a small amount of screen flickering.
 - * If this occurs, dim or turn off the light.
- Switching the input mode while watching a 3D movie may disable the 3D function on the TV. As a result, the 3D glasses may not function and the movie may not be displayed properly.
- If the 3D glasses are moved outside of their working distance, the signal from the TV will disconnect and the glasses' 3D function will turn off after several seconds. The 3D glasses will power off 30 seconds after the 3D function turns off. When this happens, the red LED will turn on for 3 seconds.
 - * Under some circumstances, the 3D glasses may malfunction due to interference from other devices.
- Ensure you are within the working distance of the glasses when you view a 3D video.
 - * The images may not be viewable in 3D if you move outside of the working distance for 3 seconds.
- If you lie on your side while watching TV with 3D active glasses, the
 picture may appear dark or may not be visible.
- The 3D glasses may not work properly due to interference from other 3D products or electronic devices that operate on the 2.4GHz frequency such as a microwave oven or Internet AP. If he 3D function malfunctions due to interference, please move all other electronic or wireless communication devices as far away from the glasses and the TV as possible.
- The 3D effect may be experienced differently depending on the viewer. You may not notice the 3D effect at all if you wear glasses and have an unusual prescription.
- If a part of the 3D glasses or lenses is defective or damaged, it cannot be repaired and the glasses should be replaced. If the glasses stop working within the warranty period, the glasses can be repaired or replaced for free. If the glasses have been damaged due to the fault of the customer or the warranty period has expired, a new pair of glasses will have to be purchased.

CAUTION

IMPORTANT HEALTH AND SAFETY INFORMATION FOR 3D IMAGES. READ THE FOLLOWING CAUTIONS BEFORE YOU OR YOUR CHILD USE THE 3D FUNCTION.

- Adults should frequently check on children who are using the 3D function. If there are any complaints of tired eyes, headaches, dizziness or nausea, stop the child from viewing the 3D TV and ensure that they rest.
- Do not use the 3D glasses for other purposes such as general wear, sunglasses, protective goggles, etc.
- Some viewers may experience discomfort such as dizziness, nausea and headaches while viewing 3D TV. If you experience any of these symptoms, stop viewing the 3D TV, remove the 3D glasses and rest for awhile.
- Watching 3D pictures for an extended period of time may cause eye strain. If you experience any eye strain, stop viewing the 3D TV, remove the 3D glasses and rest for awhile.
- Do not use the 3D function or 3D glasses while walking or moving around. Using the 3D function or 3D Active Glasses while moving around may result in injury from running into objects, tripping, and/or falling.

SAFETY PRECAUTIONS

The following safety instructions are to ensure your personal safety and prevent property damage. Please read them to ensure the proper use of the product.

- Do not place the product in a location exposed to direct sunlight, heat, fire or water. This may result in a product malfunction or fire.
- Do not apply force to the lenses of the 3D glasses. Do not drop or bend the product. This may result in a product malfunction.
- Use only the specified standard batteries. When replacing the battery, insert the battery so that its polarity (+, -) is correct. Failing to do so may damage the battery or result in fire, personal injury or environmental damage caused by liquid leaking from the battery.
- Keep the used battery out of the reach of children so that they do not accidently swallow the battery. If your child has swallowed the battery, consult your doctor immediately.
- When cleaning the product, do not spray water or cleaner directly onto the surface of the product. Spraying water or cleaner directly onto the glasses may result in fire or electric shock, damage to the product's surface, or cause the indicator labels on the product's surface to come loose.
- Do not use chemicals containing alcohol, solvents, or surfactants, or chemicals such as wax, benzene, thinner,mosquito repellant, lubricant or cleaners. These may cause a discoloration of or cracks in the product surface and cause the indicator labels on the product's surface to come loose.
- Since the product surface and lens are easily scratched, make sure
 to use a clean soft cloth when cleaning to avoid scratching either the
 surface or the lens. As the product may become scratched if there are
 any foreign items on the cloth, make sure to shake off any dust before
 using it.
- Never disassemble, repair, or modify the 3D glasses yourself. Do not use the glasses when they are out of order or broken.
- Take care that you do not injure your eyes with the edges of the frame of the 3D glasses when wearing them.

Troubleshooting

If you encounter	Try this
My 3D glasses do not wol	 Replace the battery. The 3D glasses should be close to the TV. Make sure that the distance between the TV and your 3D glasses is less than 19.68 feet (6m) in a straight line. Check the 3D function settings of your TV.
The LED keeps blinking	> The battery is dead. Replace the battery.

WARRANTY

This Samsung product is warranted for the period of twelve (12) months from the original date of purchase, against defective materials and workmanship. In the event that warranty service is required, you should first return the product to the retailer from whom it was purchased. However, Samsung Authorized Service Centres will comply with this warranty during the Warranty Period. To obtain details, please contact your nearest Authorized Service Centre.

PROCEDURE FOR MAKING A WARRANTY CLAIM

To make a claim under the warranty, you must contact the Samsung Contact Centre (see details above) during the Warranty Period to discuss the problems you are having with the product. If a repair or replacement is required, you will be provided with a Warranty Claim Number and address of an Authorised Service Centre. If you are provided with a Warranty Claim Number, to obtain a repair or replacement of the product, you must send the product to the Authorised Service Centre advised together with:

- a copy of your completed warranty card or, if you have already provided this to Samsung, your name, address and contact telephone number;
- your original receipt, invoice or sales slip for the purchase of the product as new;
- your Warranty Claim Number.
 Samsung will then repair or replace the product and return it to you using the contact details provided.

WARRANTY CONDITIONS

- The warranty is only valid if the above procedure for making a warranty claim is followed.
- Samsung's obligations are limited to the repair or, at its discretion, replacement of the product or the defective part.
- 3. Warranty repairs must be carried out by Samsung Authorised Service Centres. No re-imbursement will be made for repairs carried out by service centres or dealers that are not authorised by Samsung and any such repair work and damage to the products caused by such repair work will not be covered by this warranty.
- 4. This product is not considered to be defective in materials nor workmanship by reason that it requires adaptation in order to conform to national or local technical or safety standards in force in any country other than the one for which the product was originally designed and manufactured. This warranty will not cover, and no re-imbursement will be made for such adaptation, nor any damage which may result.
- The warranty does not apply to any product that has been damaged or rendered defective as a result of any of the following excluded reasons, namely:
 - · as a result of accident, misuse, or abuse;
 - through the failure to use this product for its normal purposes;
 - by the use of parts not manufactured or sold by Samsung;
 - by modification without the written permission of Samsung;
 - by damage resulting from transit, neglect, power surge or failure;
 - · by damage resulting from lightning, water, fire, or acts of God;
 - as a result of normal wear and tear; or
 - difference in broadcasting methods or product standards between countries.
- **6.** This warranty is valid for any person who legally acquired possession of the product during the warranty period.
- NOTHING IN THESE WARRANTY CONDITIONS SHALL EXCLUDE OR LIMIT SAMSUNG'S LIABILITY FOR DEATH OR PERSONAL INJURY CAUSED BY THE PROVEN NEGLIGENCE OF SAMSUNG, UNLESS SUCH LIMITATION OR EXCLUSION IS PERMITTED BY APPLICABLE LAW.
- 8. WITH THE EXCEPTION OF SAMSUNG'S LIABILITY WHICH CANNOT BE EXCLUDED OR LIMITED BY LAW, SAMSUNG SHALL NOT BE LIABLE FOR: ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES LOSSES OR EXPENSES; OR LOST PROFITS; OR LOSS OF USE OR LOSS OF DATA; OR DAMAGE TO GOODWILL, REPUTATION OR LOST BUSINESS, ARISING DIRECTLY OR INDIRECTLY, FROM THE PURCHASE, USE OR SALE OF THE PRODUCT, WHETHER OR NOT SAMSUNG WAS ADVISED OR AWARE OF THE POSSIBILITY OF SUCH DAMAGES, LOSSES OR EXPENSES.
- 9. WITH THE EXCEPTION OF SAMSUNG'S LIABILITY WHICH CANNOT BE EXCLUDED OR LIMITED BY LAW, SAMSUNG'S LIABILITY UNDER OR IN CONNECTION WITH THIS WARRANTY OR THE PURCHASE, USE OR SALE OF THE PRODUCT SHALL NOT EXCEED THE PRICE PAID FOR THE PRODUCT AS NEW.
- 10. UNLESS PROVIDED FOR IN THIS WARRANTY, ALL CONDITIONS, WARRANTIES AND TERMS IMPLIED BY STATUTE OR OTHERWISE ARE HEREBY EXCLUDED TO THE MAXIMUM EXTENT PERMISSIBLE BY LAW.
- 11. The above warranty conditions do not affect your statutory rights as a consumer or otherwise.

The continuous operating time may differ depending on the wireless communication environment and usage conditions.

Regulatory Compliance Statements

低功率電波輻射性電機管理辦法

第十二條 經型式認證合格之低功率射頻電機,非經許可,公司、商號 或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

第十四條 低功率射頻電機之使用不得影響飛航安全及干擾合法通信; 經發現有干擾現象時,應改善至無干擾時方得繼續使用。前項合法通信,指依電信法規定作業之無線電通信。低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

◆FCC COMPLIANCE

Federal Communication Commission Interference Statement

- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- 2) NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio requency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

◆IC Statement

This Class B digital apparatus complies with Canadian ICES-003.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil numérique de la classe B est conforme á la norme NMB-003 du Canada.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Top 5 Troubleshooting Tips

1. Can't Connect with Network or Apps (For internet supported model only)

- Make sure there is a network connection (Menu → Network → Network status)
- · Contact your service provider

2. No Picture/Sound or Distorted Picture/Sound with an External Device

- Make sure your connection to the device is correct.
- Perform a TV Self Diagnosis to identify the problem
 (Menu → Support → Self Diagnosis → Sound or Picture Test)
- Change the picture size (Use "P. Size" button on your remote)

3. Poor Picture Quality

 Verify your signal is High Definition or Standard Definition (Contact your service provider)

4. Your Settings are Lost after 30 Minutes

Change to Home Mode
 ("Tools" on your remote → Store Demo Off)

5. "Weak or No Signal" Displayed in TV Mode / Cannot Find Channel

- Press Source button on your remote
- Run Auto Program and search for channels (Menu → System → Plug & Play → Enter)

TV 5 Problemas Principales

1. No se puede conectar con la Red o Apps (Solo para modelos que soporten conexión a internet)

- Asegúrese que el equipo este conectado a una red (Menú → Red → Estado de Red)
- Contactar a su proveedor de Internet

2. No hay Imagen/sonido o Distorsión de Imagen/sonido con un dispositivo externo

- Asegure que la conexión física del dispositivo sea correcta
- Para identificar el problema, realice un Auto diagnostico en la TV (Menú → Soporte de Tecnico → Autodiagnostico
 - → Prueba de Imagen o Sonido)
- Cambie el tamaño de la imagen (Use el botón "P. Size" del control remoto)

3. Mala Calidad de Imagen

 Verificar si su señal es Alta Definición o Definición Regular (Contactar a su proveedor de Servicios)

4. Su configuración se pierde después de 30 minutos

Cambiar a Uso Domiciliario
 (Use el botón "Tools" del control remoto → Demo Comercio Desac.)

5. "Señales Debiles o Inexistentes" Mensaje desplegado en TV Mode / No puede encontrar canales

- Presione el botón "Source" en su control remoto
- Corra Auto Program e inicie búsqueda de canales (Menú → Sistema → Plug & Play → Enter)

Power Cord

The ferrite cores are used to shield the cables from interference. When connecting the ferrite core to a cable, open the ferrite core and clip it around the cable near the plug as shown in the figure.

- A Maximum distance between the ferrite core and the end of the cord inserted in the TV: 3/4 inches (20mm)
- B Maximum distance between the ferrite core and the other end of the cord inserted in the AC outlet: 3/4 inches (20mm)

Cordon d'alimentation

Les tores de ferrite protègent les cordons contre les interférences. Pour fixer le tore de ferrite à un cordon, ouvrez le tore et placez-le autour du cordon, près de la fiche, conformément à l'illustration.

- A Distance maximale entre le tore magnétique et l'extrémité du câble branché au téléviseur : 3/4 pouces (20mm)
- B Distance maximale entre le tore de ferrite et l'extrémité du câble branché à la prise de courant : 3/4 pouces (20mm)

Antenna Cable / LAN Cable (sold separately)

The ferrite cores are used to shield the cables from interference. When connecting a cable, open the ferrite core and clip it around the cable near the plug as shown in the figure.

Use Cat 5 (*STP Type) cable for LAN cable. (*Shield Twist Pair)

Câble d'antenne / câble LAN (vendu séparément)

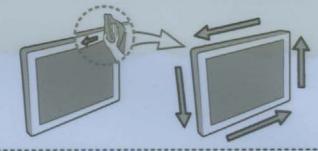

Les tores de ferrite protègent les cordons contre les interférences. Lorsque vous branchez un câble, ouvrez le tore de ferrite et fixez-le autour du câble, près de la fiche, conformément à l'illustration.

Utilisez un câble Cat 5 (de type *STP) pour un câble LAN. (*paire torsadée blindée)

Warning! Important Safety Instructions

(Please read the appropriate section that corresponds to the marking on your Samsung product before attempting to install the product.)

CAUTION

RISK OF ELECTRIC SHOCK DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). THERE ARE NO USER SERVICEABLE PARTS INSIDE. REFER ALL SERVICING TO QUALIFIED PERSONNEL.

This symbol indicates that high voltage is present inside. It is dangerous to make any kind of contact with any internal part of this product.

This symbol alerts you that important literature concerning operation and maintenance has been included with this product.

- The slots and openings in the cabinet and in the back or bottom are provided for necessary ventilation. To ensure reliable operation of this apparatus, and to protect it from overheating, these slots and openings must never be blocked or covered.
 - Do not cover the slots and openings with a cloth or other materials.
- Do not block the slots and openings by placing this apparatus on a bed, sofa, rug or other similar surface.
- Do not place this apparatus in a confined space, such as a bookcase, or built-in cabinet, unless proper ventilation is provided.
- Do not place this apparatus near or over a radiator or heat resistor, or where it is exposed to direct sunlight.
- Do not place a water containing vessel(vases etc.) on this apparatus, as this can result in a risk of fire or electric shock.
- Do not expose this apparatus to rain or place it near water(near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool etc.). If this appratus accidentally gets wet, unplug it and contact an authorized dealer immediately. Make sure to pull out the power cord from the outlet before cleaning.
- This appratus uses batteries. In your community there might be regulations that require you to dispose of these batteries properly under environmental considerations. Please contact your local authorities for disposal or recycling information.
- Do not overload wall outlets, extension cords or adaptors beyond their capacity, since this can result in fire or electric shock.
- Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plug end, adaptors and the point where they exit from the appliance.
- To protect this apparatus from a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the set due to lightning and power line surges.
- Before connecting the AC power cord to the DC adaptor outlet, make sure the voltage designation of the DC adaptor corresponds to the local electrical supply.
- Never insert anything metallic into the open parts of this apparatus. Doing so many create a danger of electric shock.
- To avoid electric shock, never touch the inside of this apparatus. Only a qualified technician should open this apparatus.
- Make sure to plug the power cord in until it is firmly inserted. When removing the power cord, make sure to hold the power plug when pulling the plug from the outlet. Do not touch the power cord with wet hands.
- If this appratus does not operate normally in particular, if there are any unusual sounds or smells coming from it unplug it immediately and contact an authorized dealer or service center.
- Be sure to pull the power plug out of the outlet if the TV is to remain unused or if you are to leave the house for an extended period of time (especially when children, elderly or disabled people will be left alone in the house).
 - Accumulated dust can cause an electric shock, an electric leakage or a fire by causing the power cord to generate sparks and heat or the insulation to deteriorate.
- Be sure to contact an authorized service center, when installing your set in a location with heavy dust, high or low temperatures, high humidity, chemical substances and where it operates for 24 hours such as the airport, the train station etc. Failure to do so may cause serious damage to your set.
- Use only a properly grounded plug and receptacle.
 - An improper ground may cause electric shock or equipment damage. (Class I Equipment only.)
- To disconnect the apparatus from the mains, the plug must be pulled out from the mains socket, therefore the mains plug shall be readily operable.
- Do not allow children to hang onto the product.
- Store the accessories (battery, etc.) in a location safely out of the reach of children.
- Do not install the product in an unstable location such as a shaky self, a slanted floor or a location exposed to vibration.
- Do not drop or impart any shock to the product. If the product is damaged, disconnect the power cord and contact a service center.
- Unplug the power cord from the power outlet and wipe the product using a soft, dry cloth. Do not use any chemicals such as wax, benzene, alcohol, thinners, insecticide, air freshener, lubricant or detergent. This may damage the appearance or erase the printing on the product.
- Apparatus shall not be exposed to dripping or splashing.
- Do not dispose of batteries in a fire.
- Do not short circuit, disassemble or overheat the batteries.
- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
- WARNING TO PREVENT THE SPREAD OF FIRE, KEEP CANDLES OR OTHER OPEN FLAMES AWAY FROM THIS PRODUCT AT ALL TIMES.

Regulatory Compliance Statements

Your Samsung product compliance class is marked in the user manual.

- Federal Communications Commission (FCC) USA
- Industry Canada Equipment Standard for Digital Equipment (ICES-003) Canada
- Voluntary Control Council for Interference (VCCI) Japan
- Bureau of Standards Metrology and Inspection (BSMI) Taiwan
- Korea Communications Commission(KCC) Republic of Korea
- Italian Post Ministry (Homologation) Italy

FCC Class A Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE:

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Class B Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -- Consult the dealer or an experienced radio/TV technician for help.

User Information

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. If necessary, consult with your dealer or an experienced radio/television technician for additiona suggestions. You may find the booklet called How to Identify and Resolve Radio/TV Interference Problems helpful. This booklet was prepared by the Federal Communications Commission. It is available from the U.S. Government Printing Office. Washington, DC 20402, Stock Number 004-000-00345-4.

The party responsible for product compliance:

SAMSUNG ELECTRONICS CO., LTD. America QA Lab of Samsung 3351 Michelson Drive Suite #290, Irvine, CA92612 USA

Warning

User must use shielded signal interface cables to maintain FCC compliance for the product.

Provided with this monitor is a detachable power supply cord with IEC320 style terminations.

It may be suitable for connection to any UL Listed personal computer with similar configuration.

Before making the connection, make sure the voltage rating of the computer convenience outlet is the same as the monitor and that the ampere rating of the computer convenience outlet is equal or exceeds the monitor voltage rating.

For 120 Volt applications, use only UL Listed detachable power cord with NEMA configuration 5-15P type(parallel blades) plug cap. For 240 Volt applications use only UL Listed detachable power supply cord with NEMA configuration 6-15P type (tandem blades) plug cap.

This television receiver provides display of television closed captioning in accordance with Section 15.119 of the FCC rules. (TV broadcast receivers with picture screens 13 inches or larger in diameter models only)

ICES-003 Class A Notice - Avis NMB-003, Classe A

This Class A digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

ICES-003 Class B Notice - Avis NMB-003, Classe B

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

VCCI Class A Notice

この装置は、 クラスA 情報技術装置です。 この装置を家庭環境で使用すると電波妨害を引き起こすことがあります。 この場合には使用者が適切な対策を講ずるよう要求されることがあります。

VCCI Class B Notice

この装置は、クラスB 情報技術装置です。 この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して 使用されると、受信障害を引き起こすことがあります。取扱説明書に従って正しい取り扱いをして下さい。

CCC Class A notice - China

此为A级产品,在生活环境中,该产品可能会造成无线电干扰。 在这种情况下,可能需要用户对其干扰采取切实可行的措施。

BSMI Class A Notice

The following statement is applicable to product shipped to Taiwan and marked as Class A on the product compliance label.

警告使用者:

這是甲類資訊類產品,在居住環境中使用時,可能會造成射頻幹擾,在這種情況下, 使用者會被要求採取某些適當的對策。

European Notice(Europe Only)

Products with the CE marking comply with the EMC Directive(2004/108/EC) and the Low Voltage Directive(2006/95/EC) issued by the Commission of the European Community.

Compliance with these directives implies conformity to the following European Norms:

- EN55022: Radio Frequency Interference
- EN55024: Electromagnetic Immunity of Information Technology Equipment
- EN61000-3-2: Power Line Harmonics
- EN61000-3-3: Voltage Fluctuations
- EN55013: Radio disturbance characteristics of broadcast receivers and associated equipments
- EN55020: Electromagnetic immunity of broadcast receivers and associated equipments

European Class A Warning

(If the user manual declares the product as Class A, following statement applies.)

This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

A급 기기(업무용 방송통신기자재)

이 기기는 업무용(A급) 전자파적합기기로서 판매자 또는 사용자는 이 점을 주의하시기 바라며,

가정외의 지역에서 사용하는 것을 목적으로 합니다.

B급 기기(가정용 방송통신기자재)

이 기기는 가정용(B급) 전자파적합기기로서 주로 가정에서 사용하는 것을 목적으로 하며, 모든 지역에서 사용할 수 있습니다.

Italian Homologation Notice

Questo apparecchio e fabbricato in conformita al D.M.28.08.95 n.548

ed in particolare a quanto specificato nell Art.2, comma 1.

Questo apparecchio e fabbricato nella U.E. in conformita al D.M.28.08.95 n.548

Art.2, comma 1 ed al D.M.26.03.92 Art.1

- -. For products produced in countries except European Community Questo apparecchio e fabbricato in conformita al D.M.28.08.95 n.548 ed in particolare a quanto specificato nell Art.2, comma 1.
- -. For products produced in European Community Questo apparecchio e fabbricato nella U.E. in conformita al D.M.28.08.95 n.548 Art.2, comma 1 ed al D.M.26,03.92 Art.1

Important Safety Instructions(UL Only)

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this apparatus near water.
- 6) Clean only with dry cloth.
- 7) Do not block any ventilation openings, Install in accordance with the manufacturer's instructions.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments/accessories specified by the manufacturer.
- 12) Use only with cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 13) Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

WARNING: To prevent damage which may result in fire or electric shock hazard, do not expose this appliance to rain or moisture.

Ventilation

Do not place the apparatus in a rack or bookcase. Ensure that there is adequate ventilation and that you've followed that manufacturer's instructions for mounting and installation.

MPR II Compliance (MPR II applied model only

This monitor complies with SWEDAC(MPR II) recommendations for reduced electric and magnetic fields.

ENERGYSTAR qualified model only

Your Samsung TV is ENERGYSTAR qualified in its factory default settings.
 Change to certain features, settings and functionality in this TV can change the power consumption, possibly beyond the limits required for ENERGYSTAR qualification.

 As an ENERGY STAR Partner, Samsung has determined that this product or product models meets the ENERGY STAR guidelines for energy efficiency.

SAMSUNG BRAND PRODUCTS

LIMITED WARRANTY TO ORIGINAL PURCHASER

This SAMSUNG brand product, as supplied and distributed by SAMSUNG and delivered new, in the original carton to the original consumer purchaser, is warranted by SAMSUNG against manufacturing defects in materials and workmanship for a limited warranty period of: (90 Days Parts and Labor for Commercial Use)

Categories	Parts	Labor	Size	Service
LCD/LED TV	1 Year	1 Year	40" and Larger	Carry-In or In Home
			37" and Smaller	Carry-In
Plasma Display	1 Year	1 Year	All	Carry-In or In Home
Projector (Excluding Lamp **)	2 Year	2 Year	All	Carry-In or Pick up
PICO & LED Pocket Projector	1 Year	1 Year	All	Carry-In or Pick up

** 180 Days after Purchasing and 600 Hours of Use Lamp on Projector

This limited warranty begins on the original date of purchase, and is valid only on products purchased and used in the United States. To receive warranty service, the purchaser must contact SAMSUNG for problem determination and service procedures. Warranty service can only be performed by a SAMSUNG authorized service center. The original dated bill of sale must be presented upon request as proof of purchase to SAMSUNG or SAMSUNG's authorized service center.

SAMSUNG will repair or replace this product, at our option and at no charge as stipulated herein, with new or reconditioned parts or products if found to be defective during the limited warranty period specified above. All replaced parts and products become the property of SAMSUNG and must be returned to SAMSUNG. Replacement parts and products assume the remaining original warranty, or ninety (90) days, whichever is longer.

Certain products are eligible for In-home service at Samsung's discretion. To receive in-home service, the product must be unobstructed and accessible to service personnel. If during in-home service repair can not be completed, it may be necessary to remove, repair and return the product. If in-home service is unavailable, SAMSUNG may elect, at our option, to provide for transportation of our choice to and from a SAMSUNG authorized service center. Otherwise, and for 37" and smaller LCD/LED TV, transportation to and from the SAMSUNG authorized service center is the responsibility of the purchaser.

This limited warranty covers manufacturing defects in materials and workmanship encountered in normal, and except to the extent otherwise expressly provided for in this statement, noncommercial use of this product, and shall not apply to the following, including, but not limited to: damage which occurs in shipment; delivery and installation; applications and uses for which this product was not intended; altered product or serial numbers; cosmetic damage or exterior finish; accidents, abuse, neglect, fire, water, lightning or other acts of nature; use of products, equipment, systems, utilities, services, parts, supplies, accessories, applications, installations, repairs, external wiring or connectors not supplied or authorized by SAMSUNG which damage this product or result in service problems; incorrect electrical line voltage, fluctuations and surges; customer adjustments and failure to follow operating instructions, cleaning, maintenance and environmental instructions that are covered and prescribed in the instruction book; reception problems and distortion related to noise, echo, interference or other signal transmission and delivery problems; brightness related to normal aging, or burned-in images. SAMSUNG does not warrant uninterrupted or error-free operation of the product.

THERE ARE NO EXPRESS WARRANTIES OTHER THAN THOSE LISTED AND DESCRIBED ABOVE, AND NO WARRANTIES WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SHALL APPLY AFTER THE EXPRESS WARRANTY PERIODS STATED ABOVE, AND NO OTHER EXPRESS WARRANTY OR GUARANTY GIVEN BY ANY PERSON, FIRM OR CORPORATION WITH RESPECT TO THIS PRODUCT SHALL BE BINDING ON SAMSUNG. SAMSUNG SHALL NOT BE LIABLE FOR LOSS OF REVENUE OR PROFITS, FAILURE TO REALIZE SAVINGS OR OTHER BENEFITS, OR ANY OTHER SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT, REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, AND EVEN IF SAMSUNG HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NOR SHALL RECOVERY OF ANY KIND AGAINST SAMSUNG BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT SOLD BY SAMSUNG AND CAUSING THE ALLEGED DAMAGE. WITHOUT LIMITING THE FOREGOING, PURCHASER ASSUMES ALL RISK AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO PURCHASER AND PURCHASER'S PROPERTY AND TO OTHERS AND THEIR PROPERTY

ARISING OUT OF THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT SOLD BY SAMSUNG NOT CAUSED DIRECTLY BY THE NEGLIGENCE OF SAMSUNG. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THIS PRODUCT, IS NONTRANSFERABLE AND STATES YOUR EXCLUSIVE REMEDY.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

To obtain warranty service, please contact SAMSUNG at:

Samsung Electronics America, Inc. 85 Challenger Road Ridgefield Park, NJ 07660-2112 1-800-SAMSUNG (7267864) – www.samsung.com 1-800-749-0260 : Only Projector

IMPORTANT WARRANTY INFORMATION REGARDING TELEVISION FORMAT VIEWING

Standard screen format televisions (4:3, the aspect ratio of the screen width to height) are primarily designed to view standard format full-motion video. The images displayed on them should primarily be in the standard 4:3 ratio format and constantly moving. Displaying stationary graphics and images on screen, such as the dark top and bottom letterbox bars (wide screen pictures), should be limited to no more than 15% of the total television viewing per week.

Wide screen format televisions (16:9, the aspect ratio of the screen width to height) are primarily designed to view wide screen format full-motion video. The images displayed on them should primarily be in the wide screen 16:9 ratio format, or expanded to fill the screen if your model offers this feature, and constantly moving. Displaying stationary graphics and images on screen, such as the dark side-bars on non-expanded standard format television video and programming, should be limited to no more than 15% of the total television viewing per week.

Additionally, viewing other stationary images and text such as stock market reports, video game displays, station logos, web sites or computer graphics and patterns, should be limited as described above for all televisions. Displaying any stationary images that exceed the above guidelines can cause uneven aging of Plasma Display Panels that leave subtle, but permanent burned-in ghost images in the television picture. To avoid this, vary the programming and images, and primarily display full screen moving images, not stationary patterns or dark bars. On television models that offer picture sizing features, use these controls to view the different formats as a full screen picture.

Be careful in the selection and duration of television formats used for viewing. Uneven Plasma Display Panels aging as a result of format selection and use, as well as other burned-in images, is not covered by your Samsung limited warranty.
